Subject: Bounce List 4.3 (resends of original list)
From: Dani Charleston <dani.charleston@everyonecounts.com>
Date: Tue, April 04, 2017 11:09 am
To: Maury <Maury@empowerla.org>, Stephen Box <stephen.box@lacity.org>, annmarie@empowerla.org, IEA Molly Lynn Taylor <molly@empowerla.org>, Anne-Marie Jaspers <anne-marie.jaspers@everyonecounts.com>, Javonte Hill <jovante.hill@everyonecounts.com>, Sheri Charleston <sheri.charleston@everyonecounts.com>

Hello Everyone,
Attached is the bounce report from the resends of the pre-registered voters.
One of these votes, Tom Gilmore, was on the duplicate list (he re-registered on the 2nd), so I will send his credentials to this corrected email. There is an LA employee, Anika, whose email is sitting in a soft bounce, so her mail box may be full? It might still go through, but it might not - I'll be able to check in the next 72 hours, but considering the election is in 2 days we may want to find another way to contact her.

Thank you,

Dani Charleston

Good Morning Dani,

We can catch a few that are duplicates with in the same day of verification, but we are not comparing to other days of verification. We are having several different people working on these so its kind of hard to compare on other days.

Maury

Cc: "Stephen Box" <Stephen.Box@lacity.org>

Hi Dani,

I hope you had a great weekend!

While emailing voters that couldn't be verified, I found three names from the pre-verified voter bounce lists. I don't know if any of the three got reinstated after you tried re-sending to the corrected bounce list, so wanted to follow up on them separately, so they wouldn't wind up with duplicate accounts.

Dean Misch ([redacted]) and Bryan Eck ([redacted] were both on the bounce list because of typos. (Bryan was on there under an LA City address that was misspelled).

And Carol Schatz has a new email address because she appears to be with a new organization; it is [redacted]. She verified her new street address and position with her new organization, so she should be moved to the verified list unless she already voted from her old 2016 account.

All three individuals should be listed as verified, and given logins, if they weren't already.

Thank you so much!
Ann-Marie

there? Regardless, I have copied the email content below for you!

You are receiving this email because you were a registered voter in the 2016 Neighborhood Council elections for either the Downtown Los Angeles Neighborhood Council (DLANC), or the Historic Cultural Neighborhood Council (HCNC).

On Thursday, April 6, 2017 there will be an election to determine if the Skid Row Formation Committee's proposal to subdivide the DLANC and HCNC Neighborhood Councils will be approved by the stakeholders of DLANC and HCNC.

This subdivision process, if successful, will create a new Skid Row Neighborhood Council. Under the new subdivision ordinance set forth by the LA City Council, stakeholders of a Neighborhood Council may petition to subdivide an existing Neighborhood Council to create a new one. A special election is then held for stakeholders within the boundary of the affected area. The subdivision proposal must get a "yes" vote from a majority of voters, in order to pass. You may only vote once in this particular election, even if you are a stakeholder of both Historic Cultural and Downtown LA Neighborhood Councils.

Your Online Voting Username & PIN

As a verified voter from the 2016 Neighborhood Council elections, you are already eligible to vote in this upcoming election. If you would like to cast your vote online, go to the Online Election Portal at http://empowerla.org/elections/srnc17/; click the round blue button that says VOTE HERE; and enter the username and PIN below to log in and place your vote:

Username: [redacted]

PIN: [redacted]

3 Ways To Vote

There are three ways to vote in this election. Using the login info above, you may vote online from a smartphone, tablet, or personal computer anytime until the polls close on the official Election Day. (The polls close at 7 pm Thursday April 6th.)

You may also cast your ballot at one of our Pop-Up Polls. These mobile voting stations will be making appearances around your neighborhood March 29th - April 5th: see a list of Pop-Up Poll dates, times and locations here.

You may also vote in person on Election Day. The polling place location and hours are:

Thursday April 6th, 2017
3 pm - 7 pm
James Wood Community Center
400 E 5th Street
Los Angeles, CA 90021

If you need help or have questions, email Elections@EmpowerLA.org or call 213-978-1551 (M-F 9-5) or 818-293-VOTE(8683) after hours.

Click here for more information about LA's new Subdivision Policy, or visit this page to learn more about the proposed Skid Row Neighborhood Council.

On Thursday, April 6, 2017 there will be an election to determine if the Skid Row Formation Committee's proposal to subdivide the DLANC and HCNC Neighborhood Councils will be approved by the stakeholders of DLANC and HCNC.

This subdivision process, if successful, will create a new Skid Row Neighborhood Council. Under the new subdivision ordinance set forth by the LA City Council, stakeholders of a Neighborhood Council may petition to subdivide an existing Neighborhood Council to create a new one. A special election is then held for stakeholders within the boundary of the affected area. The subdivision proposal must get a “yes” vote from a majority of voters, in order to pass. You may only vote once in this particular election, even if you are a stakeholder of both Historic Cultural and Downtown LA Neighborhood Councils.

Your Online Voting Username & PIN

As a verified voter from the 2016 Neighborhood Council elections, you are already eligible to vote in this upcoming election. If you would like to cast your vote online, go to the Online Election Portal at http://empowerla.org/elections/srnc17/; click the round blue button that says VOTE HERE; and enter the username and PIN below to log in and place your vote:

Username: [redacted]

PIN: [redacted]

3 Ways To Vote

There are three ways to vote in this election. Using the login info above, you may vote online from a smartphone, tablet, or personal computer anytime until the polls close on the official Election Day. (The polls close at 7 pm Thursday April 6th.)

You may also cast your ballot at one of our Pop-Up Polls. These mobile voting stations will be making appearances around your neighborhood March 29th - April 5th: see a list of Pop-Up Poll dates, times and locations here.

You may also vote in person on Election Day. The polling place location and hours are:

Thursday April 6th, 2017
3 pm - 7 pm
James Wood Community Center
400 E 5th Street
Los Angeles, CA 90021

If you need help or have questions, email Elections@EmpowerLA.org or call 213-978-1551 (M-F 9-5) or 818-293-VOTE(8683) after hours.

Click here for more information about LA’s new Subdivision Policy, or visit this page to learn more about the proposed Skid Row Neighborhood Council.

Hi Ann-Marie,
To make sure I am clear:
The fist section I am to re-email.
The second and third are emails we cannot resolve - would you like me to make these voters inactive so that if they do show up at the polls, they are already in the system and they can be activated once their email address is verified?

Ill work on the emails first, but let me know if my understanding of the second and third are accurate?
Thanks!

60 bounces total, or about 48% of the bounce list.

I hope this helps! Stephen, let me know who to give the list to so they can remove the dead addresses from our database at ELA.

Best wishes,
Ann-Marie

Hi, Dani,

Hope all is well. Thanks for email.

Yes, please re-email the first section.

For 2nd and 3rd groups, that sounds good to make them inactive so we can re-activate with email verification. What happens if they want to change their email though? Will we have both in the system?

Thanks!

Best,

Our email system lives outside of our online balloting system - so us updating the email addresses in the email system doesn't update the actual voter information we have. If someone on your end wanted to update them - all you have to do is edit the record in Voter Management - all that have been trained know how to use this module

Hi Ann-Marie,
I do show that the email was delivered to him on the 28th of March. The only email sent that day was the pre-verified letter that contained their credentials. Im uncertain of what email this voter is referring to-unless one was sent out by your team?

I might advise him to check his spam folder, the email was not a bounce. I can email him the information direct from my email if you would like?
Thanks,

Hi Ann-Marie,
I do show that the email was delivered to him on the 28th of March. The only email sent that day was the pre-verified letter that contained their credentials. Im uncertain of what email this voter is referring to-unless one was sent out by your team?

I might advise him to check his spam folder, the email was not a bounce. I can email him the information direct from my email if you would like?
Thanks,

Dani Charleston

Hi Dani,

Yes please; re-send email to everyone on list #1.

Lists #2 and 3 - these can all be made inactive, but left in the system, as you suggest, so they may be reactivated if the individual comes to the polls.

I am pretty sure the addresses on list #2 are probably no longer valid, but we can pull them out of the system altogether after this election, if there is no action from those individuals.

Best wishes,
Ann-Marie

Hi there,

I went over both the bounce lists from the pre-verified voter emails, and found quite a few that seemed correctable.

Of 125 total bounces, 46 of these seemed to be typos. This is the first section on the attached spreadsheet; corrected emails are in a column that can be copied and pasted. Please resend the pre-verified voter emails to everyone on that corrected email list. A lot of people from EmpowerLA are on that list - Grayce, myself, Molly, Maury, Arin... I think we have a data entry problem with people typing quickly on the tablets at registration time, as typos represented 37% of the bounced addresses.

The second section - highlighted green - represents people it is probably safe to remove from the pre-verified databases for HCNC and DLANC. Research indicates that these addresses were probably formatted correctly, but the people do not seem to be with these organizations anymore. This accounts for 15% of the bounced addresses, for a total of 19 bounces.

The third section on the spreadsheet are the unexplained failures. Research did not turn up any info. This is 60 bounces total, or about 48% of the bounce list.

I hope this helps! Stephen, let me know who to give the list to so they can remove the dead addresses from our database at ELA.

Best wishes,
Ann-Marie

Hi Dani,

Cy Hopkins was on the list of pre-verified voters from the 2016 elections; I double-checked yesterday before responding to their initial email. Apparently they still have not gotten their username and PIN to vote, however. It sounds like they did get the first Everyone Counts email, telling them they should expect to get a login soon, but didn't get the second one, which is odd. If you can please help me figure out what's going on, I'll write them back.

Thank you so much!

Hi Anne Marie,
We will trigger these emails once tomorrow morning, and one Sunday morning. We cannot have them go out automatically when someone registers so I will need to schedule one of our team members some hours this weekend to take care of it.
Thanks,

Your registration to vote in the Skid Row Subdivision Election is being reviewed

Text:

Dear (Voter),

Thank you for your patience, and for your interest in the 2017 Skid Row Neighborhood Council Subdivision Election.

Your registration will be reviewed by the end of the business day Monday, April 3rd. At that time, if your registration is complete and correct, and includes all the documentation required for this election, you will receive a confirmation email with your username and PIN to vote online. Once you have your username and PIN, you will be able to vote either online or in person through the time the official Election Day polls close, at 7 pm on Thursday, April 6, 2017.

For assistance, please email Elections@EmpowerLA.org or call 818-293-VOTE(8683).

Sincerely,
The EmpowerLA Elections Team

This voter was on the NO list because he had upload trouble, but he included his information here. Are we able to change his verification status? I haven't yet notified him regarding the failed registration.

Best wishes,
Ann-Marie

Hi Dani,

Here's a link to the schedule of Pop Up Polls for the current online election, so you'll know the times of day when you'll receive an influx of voter registrations:

https://docs.google.com/document/d/1iprn8Fyq6K4FXtj2n9_1RdHCc6CJlDuiucOMhgpgXsI/edit#

All times are PST.

Hope you're having a great day so far!

Ann-Marie

Hi Maury,
I had the team do some comparison scripts to ensure we are not duplicating voters - are these both lists that are verified and should be emailed today? I was confused by the 2 lists.

Hi Stephen and Team,
We identified an additional 398 voters from the original file that needed to be emailed (after removing all duplicates from previous uploads).

Of that list we have 105 bounces attached here - one of which belongs to Grayce?
As you are able to/if you are able to revise any email addresses please let us know!

Hi Grayce,
I chatted with Maury and I heard you were interested in current vote totals, and how many voters had issues with the system.

As of currently we have 146 votes, and 43 failed log in attempts. Those 43 entered credentials incorrectly, and very well could have logged back in and voted!

Cc: elections <elections@empowerla.org>, Stephen Box <Stephen.Box@lacity.org>, Grayce Liu <grayce.liu@lacity.org>

Hi Ann Marie,
To confirm the emails would be sent in the following scenarios:

1. When we pull the registration list daily, you'd like us to send an email to everyone in the list using #1 indicating that the registration has been received and will be processed
2. Upon receiving a list of voters back from you all to load into the system, you'd like an email going out to confirm that they have been verified
3. This email will contain their voting credentials.

Is this accurate? If so, I do have one suggestion - from past experience with emailing voters, we find the fewer emails they get tends to be better. If we could combine letter 2 and 3 to explain their registration was confirmed AND give them their election info, that will allow them to hop on over and vote. We will load them prior to emailing them anything, so its just as easy for us to email their credentials as it is to send two separate emails.
Please advise and we'll get these set up!

1. When we pull the registration list daily, you'd like us to send an email to everyone in the list using #1 indicating that the registration has been received and will be processed
2. Upon receiving a list of voters back from you all to load into the system, you'd like an email going out to confirm that they have been verified
3. This email will contain their voting credentials.

Is this accurate? If so, I do have one suggestion - from past experience with emailing voters, we find the fewer emails they get tends to be better. If we could combine letter 2 and 3 to explain their registration was confirmed AND give them their election info, that will allow them to hop on over and vote. We will load them prior to emailing them anything, so its just as easy for us to email their credentials as it is to send two separate emails.
Please advise and we'll get these set up!

Hello Everyone,
We had a voter email us via our website contact information last night. He states that he is unable to register and that the website told him "registration is closed."

I am under the impression that he was using an old/closed link from last year. I have tested the site using his address and there is no issue. I have also confirmed with the team that there was no downtime at al yesterday. I have clicked on an old link for HCNC and am able to reproduce his error message.

I have sent him an email directly to get more information on the link he is using/provide him with the current registration link.

His name is Steven Dornbush. Just wanted to give you all a heads up!

Yep! We can do something like that, however my technical guru is not online any longer. We can get it set up tomorrow if that works?
I will email before we make the change because the site will go down for about 30 seconds.
Please confirm that we should work on this in the morning!

Dani, thanks for your reply! I've added Grayce and Stephen here, as they'd be the ones to decide if having the voting portal and registration pages down for about 30 seconds would be all right, now that the election is live.

Grayce, Stephen -- is it ok to have those pages down briefly, so that they can have links pointing to each other, in case someone does something like try to vote without registering first?

Best wishes,
Ann-Marie

Hi Dani,

Grayce asked if it was possible to make the voting portal and registration pages point to each other with a link at the bottom (e.g., "If you haven't yet registered to vote, click here to sign up" or "If you're already registered, click here to vote.") Please let me know if that can be done; if not, no worries.

Thank you for all your help!

The election can be accessed at: https://empowerla.everyonecounts.com/app/10035/23419

The election will remain open until the close of polls on April 6th, 2017. The registration site will close on the 2nd of April, and be available again on election day for your poll workers.

AnnMarie has the information to update the EmpowerLA website. Once we have been notified that the update has been made, we will send emails to voters! Please be sure to contact us if we can assist you in any way.

Hi Ann Marie,
I have been told you are available to update the Empower LA site with the appropriate links.

The voter registration portal can be accessed at:
https://empowerla.everyonecounts.com/page/10023/23401

The election can be accessed at: https://empowerla.everyonecounts.com/app/10035/23419

Please let me know when this has been updated and I will trigger the emails to your voters!

Hello Everyone,
Thank you for your hard work and dedication in getting your online ballot, and voter registration portal ready for the 2017 Skid Row Sub-Division Election. The election and registration portal are now LIVE! Everyone Counts is proud to be your partner in serving your voters!

The voter registration portal can be accessed at:
https://empowerla.everyonecounts.com/page/10023/23401

The election can be accessed at: https://empowerla.everyonecounts.com/app/10035/23419

The election will remain open until the close of polls on April 6th, 2017. The registration site will close on the 2nd of April, and be available again on election day for your poll workers.

AnnMarie has the information to update the EmpowerLA website. Once we have been notified that the update has been made, we will send emails to voters! Please be sure to contact us if we can assist you in any way.

Best Regards,

Dani Charleston

Hi Ann Marie,
I have been told you are available to update the Empower LA site with the appropriate links.

The voter registration portal can be accessed at:
https://empowerla.everyonecounts.com/page/10023/23401

The election can be accessed at: https://empowerla.everyonecounts.com/app/10035/23419

Please let me know when this has been updated and I will trigger the emails to your voters!

Hi Dani,

This is Ann-Marie Holman at EmpowerLA. I just realized that the Voter Registration Portal page at https://empowerla.everyonecounts.com/page/4881/9995 still references the 2016 elections.

Is that still the registration portal we are using for this current election? I will send an updated text for that page shortly, as it will need to be changed at your end before the election goes live.

Also, Maury had said you were still waiting on other updates on our end. I am going to make the VOTE HERE button point to the page linked above, and remove the text below that button that says when the election opens. Are there any other changes needed before the election opens?

Thanks for your help!
Ann-Marie

Dani,

Could we change the small print at the bottom of the VR Portal to:

The online voter registration tool will be accessible until 11:59pm Pacific Time on Sunday, April 2, 2017.

Also, I made some adjustments to the text on the VR Portal, the changes can be found in Column C of this doc.

Thank you!

Stephen

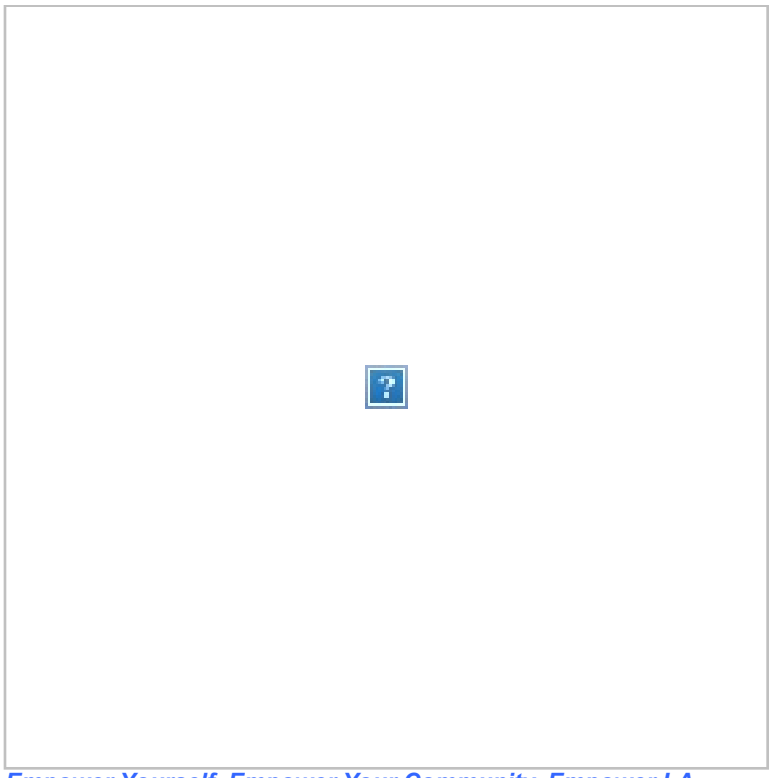

EmpowerLA Sub-Division Election Voter Registration	
Welcome to the 2017 Skid Row Sub-Division Online Election Voter Registration Portal	
The Skid Row Sub-Division Election is open to all stakeholders within the boundaries of the Downtown Los Angeles Neighborhood Council, the Historic Cultural Neighborhood Council, and the proposed Skid Row Neighborhood Council. A stakeholder is defined as any individual who lives, works or owns real property in the neighborhood and also to those who declare a stake in the neighborhood as a community interest stakeholder, defined as a person who affirms a substantial and ongoing participation within the Neighborhood Council's boundaries and who may participate in a community organization such as, but not limited to, educational, nonprofit and/or religious organizations.	The Skid Row Sub-Division Election is open to all stakeholders within the boundaries of the Downtown Los Angeles Neighborhood Council, the Historic Cultural Neighborhood Council, and the proposed Skid Row Neighborhood Council. A stakeholder is defined as any individual who lives, works or owns real property in the neighborhood and also as those who declare a stake in the neighborhood as a community interest stakeholder, defined as a person who affirms a substantial and ongoing participation within the Neighborhood Council's boundaries and who may participate in a community organization such as, but not limited to, educational, nonprofit and/or religious organizations.
Voters who registered online for the 2016 DLANC and/or HCNC elections do not need to register again, they will receive new usernames and passwords by email.	
Stakeholders who did not register online in 2016 can register here, submitting their information and verifying their identity and their qualification to vote.	
Online Voter Registration closes on Sunday, April 3, 2017	Online Voter Registration closes on Sunday, April 2, 2017

Voters who miss the online registration deadline can still register and vote the same day in person at the polling location on the election day of Thursday, April 6, 2017.	Voters who miss the online registration deadline can register and vote at one of our Pop-Up Polls. These mobile voting stations will be making appearances around your neighborhood March 29th - April 5th: see a list of Pop-Up Poll dates, times and locations here. In addition, voters can register and vote in person on Election Day. The polling place location and hours are: Thursday April 6th, 2017 3 pm - 7 pm James Wood Community Center 400 E 5th Street Los Angeles, CA 90021
If you register online and submit a completed voter registration, the Department will verify the information you submitted and if it is complete, you will receive a username and pin by email.	
If you have any questions, please contact Elections@EmpowerLA.org or by calling 213-978-1551.	If you need help or have questions, email Elections@EmpowerLA.org or call 213-978-1551 (M-F 9-5) or 818-293-VOTE(8683) after hours.
Thank you again for your participation and for Empowering LA!	
The minimum age to vote is 16 for DLANC stakeholders and 15 for HCNC stakeholders.	
Voters are required to provide documentation which verifies their identity and their qualification to vote. The exception to this requirement is for the Homeless Stakeholder, defined as a stakeholder who self-attests that they are homeless within the boundaries of the DLANC, HCNC, or proposed SRNC boundaries in places not meant for human habitation, such as cars, parks, sidewalks, abandoned buildings, in emergency transitional or residing in supportive housing for homeless persons who originally came from the streets; or who receives assistance (housing or resources) from a homeless services agency. Homeless voters will need to register and vote at the polling location on election day.	Voters are required to provide documentation which verifies their identity and their qualification to vote. Hello Everyone,
Please find the link for the VR Portal (English and Spanish), and the election (English and Spanish)

- VR Portal: **https://empowerla.everyonecounts.com/page/10023/23401**
- Test Election: https://empowerla.everyonecounts.com/app/10035/23415

From these links you will be able to do two things, in each language:

1. When you click to register, you are forced to try to log in - to confirm that you are/are not registered already. This will help to minimize the number of duplicate registrations from voters who may not remember having voted/registered in 2016.
    - To test this you can use the voter: Rob Bob 01/01/2017
2. If you click to register and you are not on file it will give you an error message, and a link to click to register as a new voter. Upon clicking this link you will be directed to the blank voter reg form - you can fill this out using an address from either Historical Cultural, or Downtown LA neighbor hoods. You will also be able to upload supporting documentation here.
3. From the election link, you will want to use the attached test voters (each can only be used once). You can review the content and format of the election itself, in both English and Spanish.

The first step in testing/approval is to have this site reviewed for content. Please review English and Spanish, and let us know if you require any changes to the format/text on either.
Once you sign off on the cosmetics/content of the sites - we will then move into L&A testing as described in a previous email.

Please let us know if you have any questions.

Awesome! Thank you!

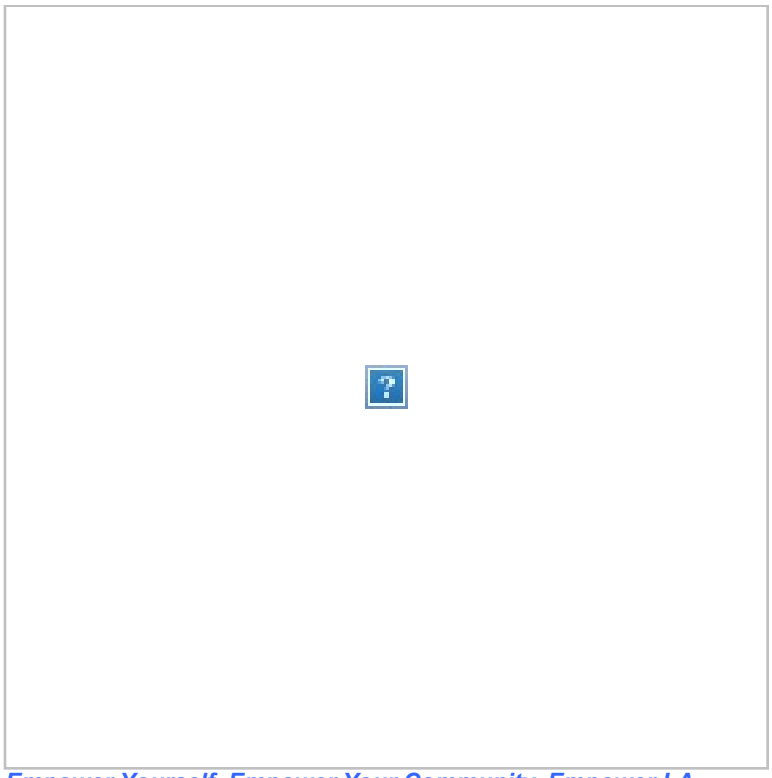

As for the Test Election, did you send the test voters?

Spanish translation updates will be complete within the hour.

Hello Everyone,
Please find the link for the VR Portal (English and Spanish), and the election (English and Spanish)

- VR Portal: **https://empowerla.everyonecounts.com/page/10023/23401**
- Test Election: https://empowerla.everyonecounts.com/app/10035/23415

From these links you will be able to do two things, in each language:

1. When you click to register, you are forced to try to log in - to confirm that you are/are not registered already. This will help to minimize the number of duplicate registrations from voters who may not remember having voted/registered in 2016.
    - To test this you can use the voter: Rob Bob 01/01/2017
2. If you click to register and you are not on file it will give you an error message, and a link to click to register as a new voter. Upon clicking this link you will be directed to the blank voter reg form - you can fill this out using an address from either Historical Cultural, or Downtown LA neighbor hoods. You will also be able to upload supporting documentation here.
3. From the election link, you will want to use the attached test voters (each can only be used once). You can review the content and format of the election itself, in both English and Spanish.

The first step in testing/approval is to have this site reviewed for content. Please review English and Spanish, and let us know if you require any changes to the format/text on either.
Once you sign off on the cosmetics/content of the sites - we will then move into L&A testing as

described in a previous email.

Please let us know if you have any questions.

When I log in as Rob Bob and am recognized as a returning voter, can we change the language to:

The Skid Row Sub-Division Election is open to all stakeholders within the boundaries of the Downtown Los Angeles Neighborhood Council, the Historic Cultural Neighborhood Council, and the proposed Skid Row Neighborhood Council.

A stakeholder is defined as any individual who lives, works or owns real property in the neighborhood and also those who declare a stake in the neighborhood as a community interest stakeholder, defined as a person who affirms a substantial and ongoing participation within the Neighborhood Council's boundaries and who may participate in a community organization such as, but not limited to, educational, nonprofit and/or religious organizations.

Voters who miss the online registration deadline can register and vote at one of our Pop-Up Polls. These mobile voting stations will be making appearances around your neighborhood March 29th - April 5th: see a list of Pop-Up Poll dates, times and locations here.

In addition, voters can register and vote in person on Election Day. The polling place location and hours are:

Thursday April 6th, 2017
3 pm - 7 pm
James Wood Community Center
400 E 5th Street
Los Angeles, CA 90021

SPANISH:

La Eleccion de la Sub-Division de Skid-Row esta abierta para todos los accionistas que se encuentran dentro de los bordes del Centro de Los Angeles "Los Angeles Neighborhood Council" (Consejo Vecinal de Los Angeles), El Historico Centro Cultural del Consejo de Vecindad, y el Skid Row Consejo Vecinal.

Un "accionista" se define como cualquier persona que vive, trabaja o es propietaria de Bienes Raices en el vecindario y que tambien aquellos que declaran tener "interes 0 acciones" en el vecindario asi como un interes en la comunidad, definiendo a la persona como alguien que continuamente participa o colabora dentro de los limites de el Consejo Vecinal, y quien puediera ser parte de una organizacion comunitaria, que no limitada a fines educativos, sin fines de lucro y/o instituciones religiosas.

Los votantes que añoran el plazo de inscripción en línea pueden inscribirse y votar en una de nuestras encuestas de pop-up. Estas estaciones votantes móviles estarán haciendo apariciones alrededor de su vecindario el 29 de marzo - 5 de abril: para ver una lista de fechas, tiempos y ubicaciones aquí. (http://empowerla.org/elections/srnc17/)

Además, los votantes pueden registrarse y votar en persona el día de las elecciones. El lugar de votación y las hora es:

Jueves 6 de Abril, 2017
3pm-7pm James Wood Centro Comunidad
400 E. 5th St.
Los Angeles, CA. 90021

Jovante,

Thank you!

Dani and Team,

When I register as a voter, the Voter Qualification section has four choices.

1. Should it be dynamic? (pick one and the other choices disappear?)
2. Should the residential ask for an address? (redundant, the residential address has already been entered)
3. Does the application use the address look-up feature to verify that the address is within the boundaries?

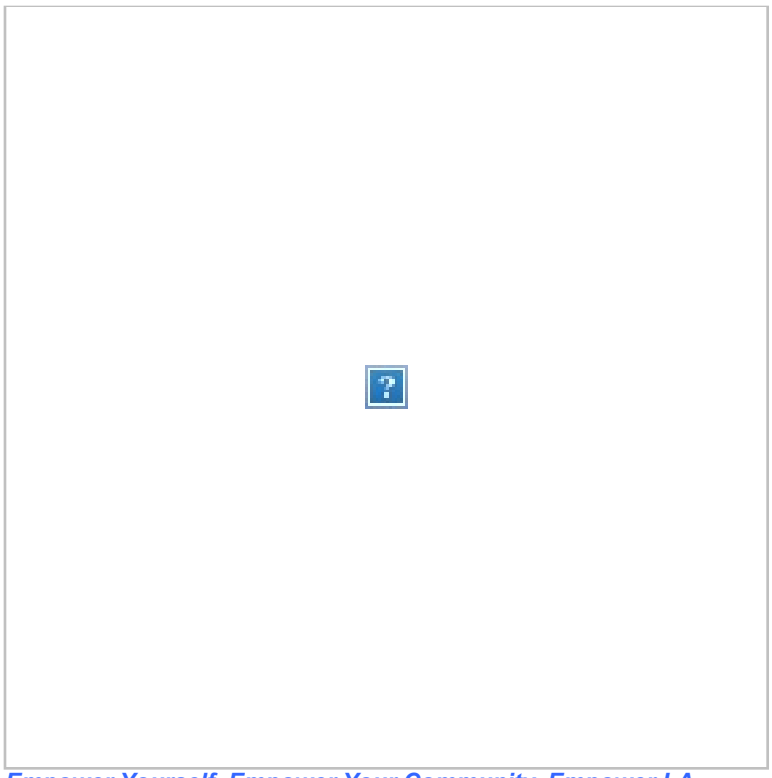

Thanks!

Stephen

Dani,

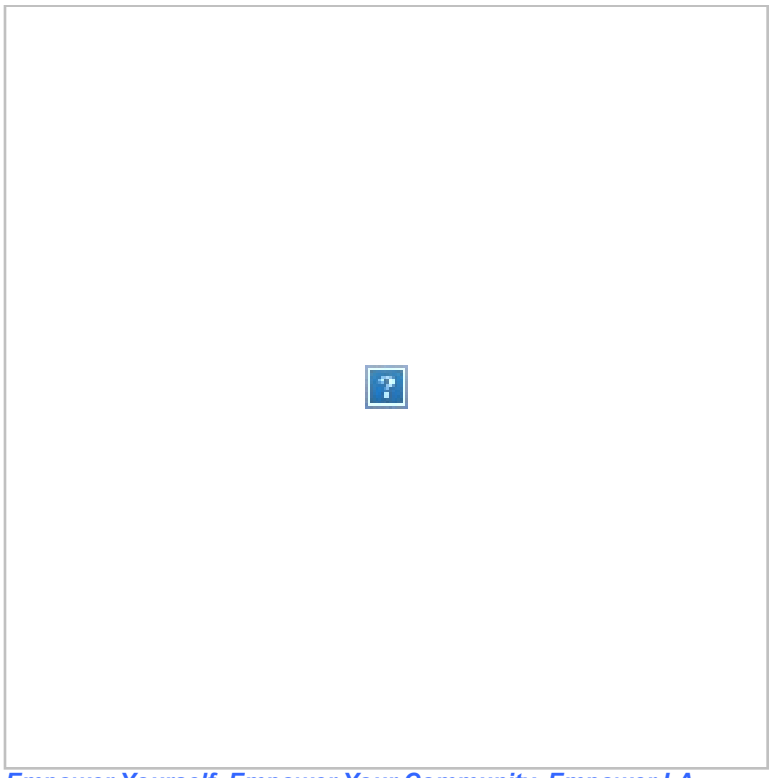

I tested the VR Portal, including registered voter and new voter, it looks great!

As for the Test Election, it says the election is closed.

Dani,

The Spanish Reg portal needs a second upload link for documents.

Also, I received an error message that said "Contact the Help Desk" but had no contact info. Could we add:

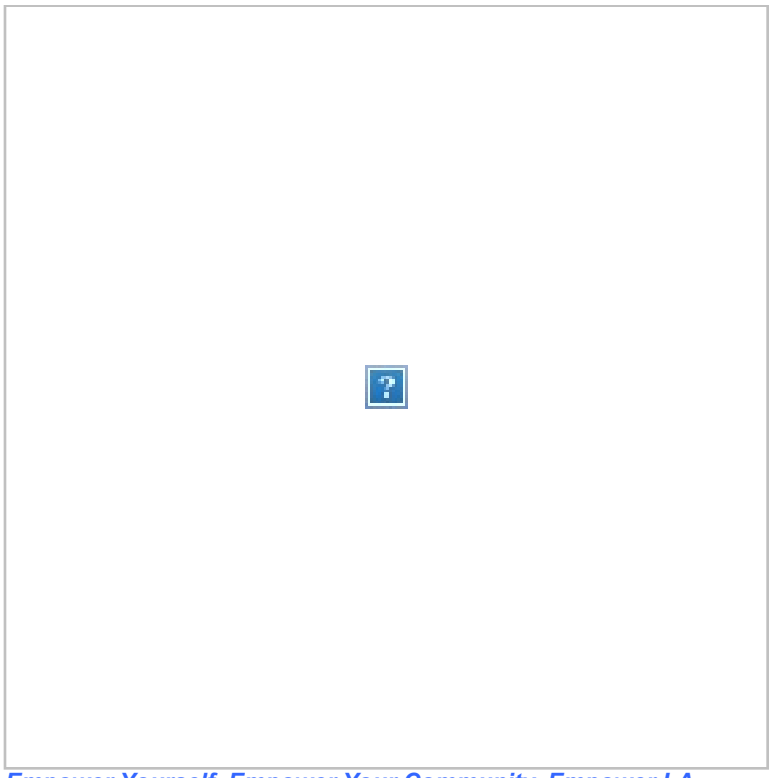

If you need help or have questions, email Elections@EmpowerLA.org or call 213-978-1551 (M-F 9-5) or 818-293-VOTE(8683) after hours.

Thank you!

Stephen

Dani,

The Spanish Reg portal needs a second upload link for documents.

Also, I received an error message that said "Contact the Help Desk" but had no contact info. Could we add:

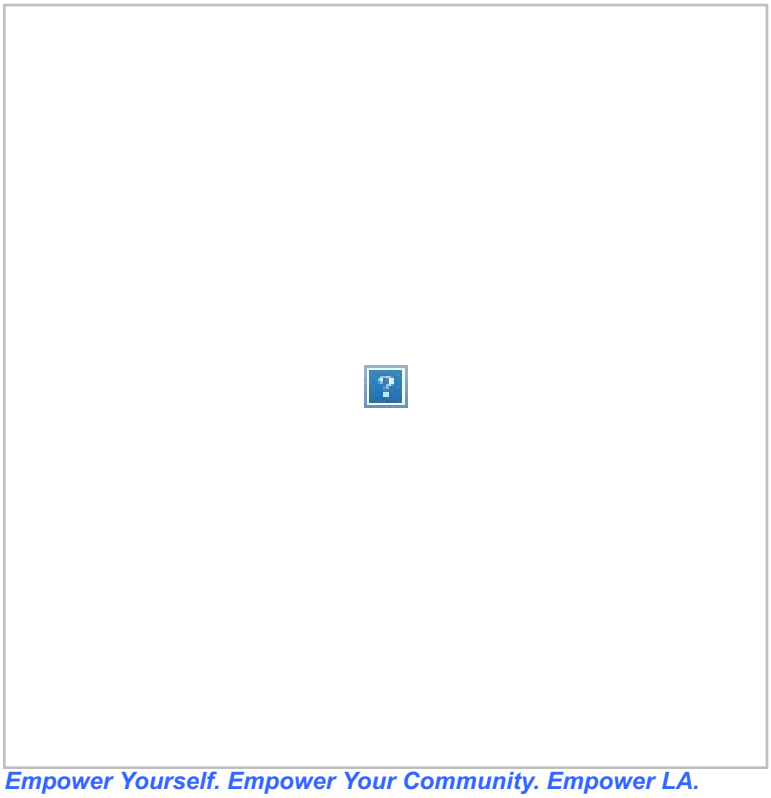

If you need help or have questions, email Elections@EmpowerLA.org or call 213-978-1551 (M-F 9-5) or 818-293-VOTE(8683) after hours.

Thank you!

Stephen

I don't know where the error message originated, I was on the Spanish VRP but don't know what triggered it.

Hello Everyone,
Please find the link for the VR Portal (English and Spanish), and the election (English and Spanish)

- VR Portal: **https://empowerla.everyonecounts.com/page/10023/23401**
- Test Election: https://empowerla.everyonecounts.com/app/10035/23415

From these links you will be able to do two things, in each language:

1. When you click to register, you are forced to try to log in - to confirm that you are/are not registered already. This will help to minimize the number of duplicate registrations from voters who may not remember having voted/registered in 2016.
    - To test this you can use the voter: Rob Bob 01/01/2017
2. If you click to register and you are not on file it will give you an error message, and a link to click to register as a new voter. Upon clicking this link you will be directed to the blank voter reg form - you can fill this out using an address from either Historical Cultural, or Downtown LA neighbor hoods. You will also be able to upload supporting documentation here.

3. From the election link, you will want to use the attached test voters (each can only be used once). You can review the content and format of the election itself, in both English and Spanish.

The first step in testing/approval is to have this site reviewed for content. Please review English and Spanish, and let us know if you require any changes to the format/text on either.
Once you sign off on the cosmetics/content of the sites - we will then move into L&A testing as described in a previous email.

Please let us know if you have any questions.

I voted three times, in English and changed my vote, in Spanish and changed my vote and took the survey, and in English and changed my vote and tried to take the survey. All three ballots worked great!

The English version does not have a link to the survey.

I tried to vote reusing a username and PIN, receiving an error message which says "contact your local election office to speak with an official"

Could we add our contact data to the error message:

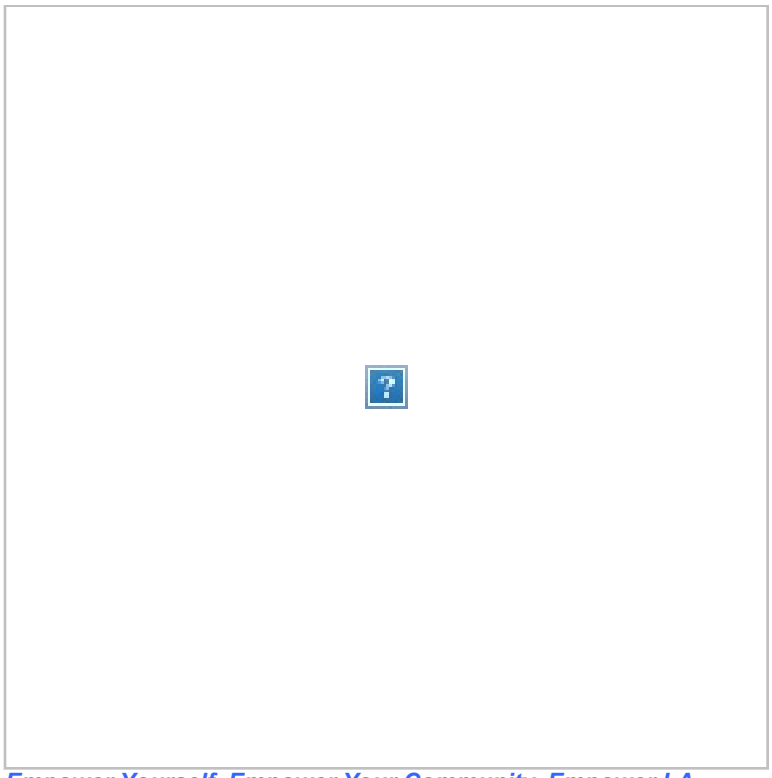

> If you need help or have questions, email Elections@EmpowerLA.org or call 213-978-1551 (M-F 9-5) or 818-293-VOTE(8683) after hours.

> - Test Election: https://empowerla.everyonecounts.com/app/10035/23415

From these links you will be able to do two things, in each language:

1. When you click to register, you are forced to try to log in - to confirm that you are/are not registered already. This will help to minimize the number of duplicate registrations from voters who may not remember having voted/registered in 2016.
    - To test this you can use the voter: Rob Bob 01/01/2017
2. If you click to register and you are not on file it will give you an error message, and a link to click to register as a new voter. Upon clicking this link you will be directed to the blank voter reg form - you can fill this out using an address from either Historical Cultural, or Downtown LA neighbor hoods. You will also be able to upload supporting documentation here.
3. From the election link, you will want to use the attached test voters (each can only be used once). You can review the content and format of the election itself, in both English and Spanish.

The first step in testing/approval is to have this site reviewed for content. Please review English and Spanish, and let us know if you require any changes to the format/text on either.
Once you sign off on the cosmetics/content of the sites - we will then move into L&A testing as described in a previous email.

Please let us know if you have any questions.

Hello Everyone,
Please find the link for the VR Portal (English and Spanish), and the election (English and Spanish)

- VR Portal: **https://empowerla.everyonecounts.com/page/10023/23401**
- Test Election: https://empowerla.everyonecounts.com/app/10035/23415

From these links you will be able to do two things, in each language:

1. When you click to register, you are forced to try to log in - to confirm that you are/are not registered already. This will help to minimize the number of duplicate registrations from voters who may not remember having voted/registered in 2016.
    - To test this you can use the voter: Rob Bob 01/01/2017
2. If you click to register and you are not on file it will give you an error message, and a link to click to register as a new voter. Upon clicking this link you will be directed to the blank voter reg form - you can fill this out using an address from either Historical Cultural, or Downtown LA neighbor hoods. You will also be able to upload supporting documentation here.
3. From the election link, you will want to use the attached test voters (each can only be used once). You can review the content and format of the election itself, in both English and Spanish.

The first step in testing/approval is to have this site reviewed for content. Please review English and Spanish, and let us know if you require any changes to the format/text on either.
Once you sign off on the cosmetics/content of the sites - we will then move into L&A testing as described in a previous email.

Please let us know if you have any questions.

Hi Stephen,
I checked with the team and it looks like all changes have been made. The only outstanding I see i that the survey is still saying 2016.

Are there additional changes that need to be made? You can do a final review, and we should then schedule L&A testing.

    - To test this you can use the voter: Rob Bob 01/01/2017
2. If you click to register and you are not on file it will give you an error message, and a link to click to register as a new voter. Upon clicking this link you will be directed to the blank voter reg form - you can fill this out using an address from either Historical Cultural, or Downtown LA neighbor hoods. You will also be able to upload supporting documentation here.
3. From the election link, you will want to use the attached test voters (each can only be used once). You can review the content and format of the election itself, in both English and Spanish.

The first step in testing/approval is to have this site reviewed for content. Please review English and Spanish, and let us know if you require any changes to the format/text on either.
Once you sign off on the cosmetics/content of the sites - we will then move into L&A testing as described in a previous email.

Please let us know if you have any questions.

Excellent!!
Let me know when the survey is updated so we can go through our L&A! I also was to ask if have talked with Grayce today- Midori sent over an email that requires attention prior to go live as well!

Let me know what our time frame looks like on the survey and response for Midori- that way I can turn on the L&A app and get voters ready.
Thanks,

Sent from my iPhone

Hi Dani,

It's a pleasure to meet you as well!

The email for Everyone Counts to send to voters already verified from the last round of NC elections in 2016 is pasted below, and is also available here:

https://docs.google.com/a/annmarieholman.com/document/d/1FNNXxseR1EVkJDB-IBxasgFw-iW6PghXK0C5i56FENY/edit?usp=sharing

The email includes a link to the voting portal, and a place to drop in username/PIN.

Please let me know if any changes are needed.

Have a lovely weekend --
Ann-Marie

****

[To Voters who have registered and have been verified in the 2016 NC elections]

Subject: Skid Row Subdivision Election notice

Dear Neighborhood Council Voter,

You are receiving this email because you were a registered voter in the 2016 Neighborhood Council elections for either the Downtown Los Angeles Neighborhood Council (DLANC), or the Historic Cultural Neighborhood Council (HCNC).

On Thursday, April 6, 2017 there will be an election to determine if the Skid Row Formation Committee's proposal to subdivide the DLANC and HCNC Neighborhood Councils will be approved by the stakeholders of DLANC and HCNC.

This subdivision process, if successful, will create a new Skid Row Neighborhood Council. Under the new subdivision ordinance set forth by the LA City Council, stakeholders of a Neighborhood Council may petition to subdivide an existing Neighborhood Council to create a new one. A special election is then held for stakeholders within the boundary of the affected area. The subdivision proposal must get a "yes" vote from a majority of voters, in order to pass. You may only vote once in this particular election, even if you are a stakeholder of both Historic Cultural and Downtown LA Neighborhood Councils.

Your Online Voting Username & PIN

As a verified voter from the 2016 Neighborhood Council elections, you are already eligible to vote in this upcoming election. If you would like to cast your vote online, go to the Online Election Portal at http://empowerla.org/elections/srnc17/; click the round blue button that says VOTE HERE; and enter the username and PIN below to log in and place your vote:

Username: _____
PIN: _____

3 Ways To Vote

There are three ways to vote in this election. Using the login info above, you may vote online from a smartphone, tablet, or personal computer anytime until the polls close on the official Election Day. (The polls close at 7 pm Thursday April 6th.)

You may also cast your ballot at one of our Pop-Up Polls. These mobile voting stations will be making appearances around your neighborhood March 29th - April 5th: see a list of Pop-Up Poll dates, times and locations here.

You may also vote in person on Election Day. The polling place location and hours are:

Thursday April 6th, 2017
3 pm - 7 pm
James Wood Community Center
400 E 5th Street
Los Angeles, CA 90021

If you need help or have questions, email Elections@EmpowerLA.org or call 213-978-1551 (M-F 9-5) or 818-293-VOTE(8683) after hours.

Click here for more information about LA's new Subdivision Policy, or visit this page to learn more about the proposed Skid Row Neighborhood Council.

Thanks for all you do to Empower LA!

> I wanted to give an update on the status, and recommended next steps and time frames.
>
> 1. We are updating the form we changed as discussed on our call (instead of updating information, simply informing the voter they are registered, and to check their email for their credentials)
> 2. We are connecting the pages to follow the work flow as discussed
> 3. The site needs to be tested internally for functionality and process, followed by a content review from you all and an L&A of the site to include:
>   - Logging into the VR portal as a voter already registered
>   - Logging into the VR portal, not a registered voter, completing the form and submitting with attachments.
>   - We will provide the registration to you as it was submitted, you can review and confirm the information you provided is what we have sent to you

- We will then upload that voter and allow for that voter to vote in the election to complete this process (this step can be done at a later date if you wish)

Based upon the recent conversation I want to ensure that we are all comfortable with the site, and the processes.
I am recommending that the E1C team continue to work on updating and testing the site throughout this weekend. We can provide the site to you all for content review by Sunday. We can move into the full L&A as described above early Monday, and go live immediately following sign off.

I do know that the hope was to go live today - but I am concerned that the amount of risk we would be taking in rushing the Go Live is not going to benefit your team, or the success of this very important election. Given the intense scrutiny of this election, we must make sure that we do a comprehensive testing before going live. With this being a highly politicized election, we want to make sure everything is done well, which requires a slower time frame than we would have hoped for.

Hi All,

Here are the action items from today's session, please note the items assigned to you:

1. Stephen and Jay to send E1C a list of NC reps to give access to Voter Management

2. Jose M. to provide login creds for ELA to play on voter Management - no later than Wednesday 2/24

3. Jose M. to check with Admin PO on ability to export the voters from Voter Management

4. E1C to provide the widgets that provide ballot styles based on stakeholder type; Decision to have the spreadsheet available offline in case of connectivity issues.

5. E1C to provide availability for the next webinar training

Hi Jose,

The team will need through tomorrow to complete and proof the VR apps. Once the proofing is complete we will be able to quickly publish the apps for you to resume your testing. Let me know if you have questions. Thanks!

Hi Stephen,

I suggest we take a couple of minutes after our Polling Day meeting this afternoon to go over the worksheet. We can review the mapping of the ballot names in this conversation. Thank you!

Best Regards,

Jose Medina

+Richard, Chris, Dominic

Stephen,

Please find attached the Ballot Map worksheet that outlines all the ballot names for each NC. This is the most up to date document that was reviewed and confirmed by Dominic and Chris on Dec. 22. Can you please identify which ballots we are missing for Studio City, Del Rey, EC Southeast, EC West & Greater Valley Glen?

Please don't hesitate to reach out with any questions. Thank you.

Hi Stephen,

I suggest we take a couple of minutes after our Polling Day meeting this afternoon to go over the worksheet. We can review the mapping of the ballot names in this conversation. Thank you!

+Richard, Chris, Dominic

Stephen,

Please find attached the Ballot Map worksheet that outlines all the ballot names for each NC. This is the most up to date document that was reviewed and confirmed by Dominic and Chris on Dec. 22. Can you please identify which ballots we are missing for Studio City, Del Rey, EC Southeast, EC West & Greater Valley Glen?

Please don't hesitate to reach out with any questions. Thank you.

> Hi Jose,
>
> There is one part of the verbiage we chose to omit from the site as it references the address entry widget, which is still a work in progress by the bureau of engineering. I believe you would agree that we should omit this verbiage until the widget update is complete. What this means is that we need to make sure to update the other languages as well to match the current verbiage. Please see attached document for review which outlines what requires translations. Additionally, there are certain fields that were not translated, these too have been added to the document for your review. Happy to go over the document in the a.m.

> Hi Jose,
>
> There is one part of the verbiage we chose to omit from the site as it references the address entry widget, which is still a work in progress by the bureau of engineering. I believe you would agree that we should omit this verbiage until the widget update is complete. What this means is that we need to make sure to update the other languages as well to match the current verbiage. Please see attached document for review which outlines what requires translations. Additionally, there are certain fields that were not translated, these too have been added to the document for your review. Happy to go over the document in the a.m.

Cc: Dani Charleston , Dominic Gonzalez , Sheri Charleston , Shelley Furse

Hi All,

Here are the action items and decisions from today's session. Please note any items assigned to you.

1) Mailouts/Emails for Login credentials to voters

a) Preferred that E1C lead the efforts of sending the letters/emails
ii) **Decision not final until E1C sends quote for mailouts/emails to Holly, Grayce and Richard for review**

b) Stephen Box leading the effort of creating template for letter/email

2) Jose M. to send email to the encryption team for training
a) Add EZ and Chris to the training session

3) ETA on Bureau of Engineering for the HTTPS task by end of the week - Richard lead

6) Stephen to send the workflow of polling day to all teams - **TASK COMPLETE**

7) Jinny to send out meeting invite for polling day planning - **Meeting date Wednesday, 01/27 at 3PM.**

8) Resend the docs to Stephen of the missing translations.

9) Jose to send document outlining the election and candidate filing dates - **Attached to this email**

Please let me know if you have any questions. Thank you!

> > - Greeter separates voters into two lines:

- Voters who are already registered
  - Registered Voters go directly to Voting Booth and login with Name/DOB/PIN and cast their ballot(s)
- Voters who are not registered
  - Non-Registered Voters go to a Registration Station where they register - same process as voters in the field in the months preceding elections
  - Non-Registered Voters reach the end of the registration process and a Poll Worker assists them by viewing their ID (and supporting docs if Documentation Election) and “verifies” their registration.
  - Registration portal generates a PIN which the Voter must retain
  - Newly - Registered Voters go directly to Voting Booth and login with Name/DOB/PIN and cast their ballot(s)

- Voters (Previously Registered and Newly Registered use the same Voting Booths to cast their ballot(s) and they use the same exit once they have voted.

Poll Workers:

- Greeter directs voters and splits them into two groups, pre-registered and non-registered
- Registration - verifies new Voters when they register, matches documentation to registration, approves, generates PIN
- Provisional - intercepts Voters who are unable to complete Registration Process (missing ID or…) and gives them Provisional Ballot (ideal would be provisional PIN)
- Polling Booth - Supervises Voting Booths - assists Voters with instructions
- Provisional - intercepts Voters who are unable to complete Voting Process (operator error, wrong PIN, data error…) and takes them to Troubleshooting Station or gives them Provisional Ballot
- Exit - Thanks Voters and gives them I EmpoweredLA sticker

The file that E1C received back in Nov 10, 2015, was revised for grammatical errors.

The voter registration translation file sent on December 19, 2015, is the complete final version.

Dear Rick,

The check in the amount of $276,000.00 was mailed out on 01/26/2016, to the address "[redacted] EASTGATE MALL #[redacted], San Diego, CA 92121". Please reply to all the recipients in this email that you haven't receive check#[redacted] and confirm that we can stop payment on that check. And I'll need a new W-9 with updated address to let me modify your information in City's system and process the payment again.

I just come back from my vacation and I'm sorry for the delay.

Best Regards,

Nancy(Mengni) Zhang

Hi Nancy,

Can you confirm the check was for the full amount of $276K? Also, we have moved our office to the following address (which is the reason we haven't received it yet)

Everyone Counts, Inc.

4225 Executive Square Suite 800

La Jolla, CA 92037

I will change on the next invoice that I send but in the meantime if you can have it changed in your system that would be great.

Thanks!

Rick Forry

Help Desk Agent1 (Everyone Counts)
May 5, 12:14

We just had caller Henry Ho [redacted] who received an email from EmpowerLA saying his registration had been approved but to date we have not received any information on this voter. Sevak sent over the final list of verified voters last night and this voter was not a part of that list. I have directed the voter to the physical polls in case we have no resolution for him.

Kind Regards
Dominic

Dani,

I trust you are well!

We are resolving election challenges and could use your help.

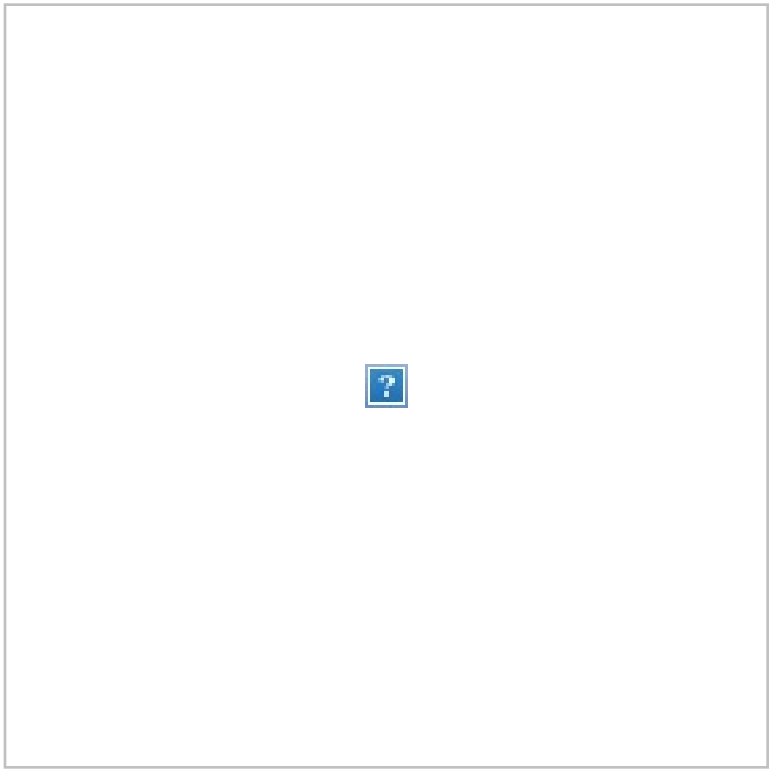

Can you send me the number of people who voted prior to March 31st at 11:24 am.

Also, the number of NO votes from March 31st at 11:24 am through the end of the election

Stephen

Hi Stephen,
So after talking about Mr. duplicate voter on the phone I went and ran another comparison to confirm there were no duplicate votes anywhere in the participation report and that they were not in the actual vote count.

I have discovered that 2 voters (presumably related - same last name, same IP address for both votes) voted in person on the 4th and then remotely via their email on the 5th. These duplicate votes ARE currently in the vote totals. They can, upon a recount, be excluded from the vote count - should you wish us to do a recount on the votes.
Voters: Guiti Alemzadeh and Mohammad Alemzadeh (highlighted in orange in the file)

To answer your earlier question, the number of votes (as you will see in the attached report) is 192 votes prior to 11:24am on the 31st of March. Please note that the file I am sending was exported from Central Time zone, and thus the times are reported in CT.

I will chat with our dev team to determine if we can tabulate the election results during a specific time period, but I am not sure we will be able to.

Best Regards,

Dani Charleston

Hi All,
I did just want to add, as an FYI, the election had a 60% voter turnout! Thats incredibly impressive for such a short window of time - your efforts out in the field with pop up polls certainly does have tremendous results!

Thanks so much!

Good Evening Everyone,
This email marks the close of the 2017 Skid Row Sub-Division Election! The polls closed at 7pm PT, and Maury messaged us to close the applications at 7:26pm PT.

Anne Marie is currently working to decrypt the election and will send the results to Maury as requested with Stephen and Grayce copied.

Thank you all for the unbelievable amount of hard work and effort put forth to make this election come together quickly, and close successfully!
Best Regards,
Dani

Hi All,

I have added the new voters to the system and emailed them their username and PIN.

Also I have re-sent a couple emails to people that have not cast their vote yet.

Please let me know if you have any questions.
Thank you!

I agree with your simpler suggestion for #1, we will leave things open the way they are for the day.

Do we call you when the last voter has voted or does the system simply Blose down at 7pm?

Can we delete the vote of a voter who is disqualified? (We have a pending challenge for a small group of voters)

As we move closer to the close of your election I wanted to follow up on a few items:

1. The URL that you have been using for the election is fine to continue using today. If we use this application it will be open until you tell us to close it this evening, once the final vote has been submitted. This will, however, leave the site open to voters at home, if they were to access the site it would be open until you tell us to close it.
    - We CAN provide you a separate link for election day and close the current one at whatever time you select. This will require quite a bit more time to provide results as we will be decrypting and aggregating totals from 2 different applications.
2. I need a list of anyone who needs a log in for Voter Management that doesnt already have one so that I can create their users asap.
3. In Voter Management you will notice that the "Vote Status" column has been fixed - where you see "initial" it means a voter has not logged into their ballot, a "confirmed" status means they have voted, and an "unconfirmed" will indicate that the voter has logged in, but not submitted their vote.

Please advise on how you'd like us to proceed with 1 and 2.
Thank you,

Dani Charleston

Hi Stephen,
We have the election set to close at 9pm to give you all time to allow anyone in the polling location to finish voting. Once that is finished if you can call us we will manually shut the election down and tabulate results for you.

If any votes have been submitted and need to be excluded we will need that voter so we can exclude the vote from the tabulation- you cannot delete it but we can remove it!

Thanks,

1. The URL that you have been using for the election is fine to continue using today. If we use this application it will be open until you tell us to close it this evening, once the final vote has been submitted. This will, however, leave the site open to voters at home, if they were to access the site it would be open until you tell us to close it.
    - We CAN provide you a separate link for election day and close the current one at whatever time you select. This will require quite a bit more time to provide results as we will be decrypting and aggregating totals from 2 different applications.
2. I need a list of anyone who needs a log in for Voter Management that doesnt already have one so that I can create their users asap.
3. In Voter Management you will notice that the "Vote Status" column has been fixed - where you see "initial" it means a voter has not logged into their ballot, a "confirmed" status means they have voted, and an "unconfirmed" will indicate that the voter has logged in, but not submitted their vote.

Please advise on how you'd like us to proceed with 1 and 2.

Hi all,
Credentials have been created using first names as the username. The password for all to initially log in is: ElectionDay2017!
Mike and AnnMarie already have clients.
Thanks

Happy Election Day!!

As we move closer to the close of your election I wanted to follow up on a few items:

1. The URL that you have been using for the election is fine to continue using today. If we use this application it will be open until you tell us to close it this evening, once the final vote has been submitted. This will, however, leave the site open to voters at home, if they were to access the site it would be open until you tell us to close it.
    - We CAN provide you a separate link for election day and close the current one at whatever time you select. This will require quite a bit more time to provide results as we will be decrypting and aggregating totals from 2 different applications.
2. I need a list of anyone who needs a log in for Voter Management that doesnt already have one so that I can create their users asap.
3. In Voter Management you will notice that the "Vote Status" column has been fixed - where you see "initial" it means a voter has not logged into their ballot, a "confirmed" status means they have voted, and an "unconfirmed" will indicate that the voter has logged in, but not submitted their vote.

Please advise on how you'd like us to proceed with 1 and 2.

The link: https://admin.everyonecounts.com

Usernames:
[redacted]

Password: [redacted]

When you log in you will be prompted to change your password. The only person who may have issues is Maudy because I set up the password before I wrote it down...so I cannot guarantee I set it up right (just email me if it doesnt work and I'll reset it!)

I will upload the username/PIN list to the SFTP and notify Maudy when it's there. Please make sure to split the list apart and each own their own list (I gave you 1000). You want to ensure that no usernames/PINS are duplicated - so mark them off as you use them, and don't share your list!

Best Regards,

Dani Charleston

Hi Stephen,

Yes that is correct. The people on this list were the doubles and have NOT been added to the system.

Sorry if my email was confusing.

Good evening All,

I have uploaded the last batches of voters into Admin. There were a couple of duplicates, whom are in the Excel sheet attached to this email.
Lizette Vargas is already in the system but she has her last name spelled slightly different this time.

Additionally I have emailed these voters their Username and PIN's.

If you have any questions or concerns please let me or Dani know.

Have a good night!

Hi Dani,

I hope this email finds you well. And thank you for resolving those duplicates.

As part of our process at PUPs, we do check to see if a voter has already been registered or is in the system -- We ask them if they've already registered, and also search the voter portal for their name before we create the new voter.

We've had a few people who have said that they registered online and we're waiting for their username and pin but it had not arrived and therefore they wanted to vote at a PUP. We've also had voters who had registered, and when we checked were in the system, we were then able to just provide their pin and username.

I hope this clarifies our process.

Thank You,
MT

Hi All,
I sent out emails to the verified voters on the list that had full voter records. The list of "MAKE THESE YES" I am still waiting for clarification on.

When running a comparison on the master file compared to the new file - I found 3 additional duplicates. These are attached, but please note - these 3 voters were all entered on the 4th of April, and were not part of an upload that we at E1C did. I am unsure if you had multiple pop up polls, but it appears these duplicates are happening at the polls. Let me know if I can help write some quick instructions for the poll workers on election day/if you need anything more from me. I want to ensure that everyone searches for these voters and doesnt duplicate their records. I am deactivating duplicate voters as I find them so no one has double voted.

Hi Molly,
Thank you for the clarification! I looked at the three voters I sent over to you that were duplicates, and I am curious as to if anyone that works polls has reported having any difficulties with registering voters? Each of the three voters were registered twice within a minute of the other - they are not identical records, so they are being entered more than once...I just want to make sure nobody is reporting any issues/struggles....

Hi Molly,
So it sounds like data entry issues - would it be possible/helpful to use a Gdoc so that people could copy/paste the usernames/PINS? I guess you would then have to write them down for the voter, but this might eliminate the need to edit usernames.

I would definitely advise that if you have to reenter a voter for these reasons that you need to delete them from the system entirely or there is the risk that they could log in and vote twice. I would recommend that when the issue is identified, the red X on the right hand side of the voter record will delete the voter. Once this happens, I would recommend searching for the voter again in voter management to ensure the record is deleted before re-entering the voter.

That very well could be the issue!
Can you help me understand why you would need to change or edit a pin/username?

Hi Dani,

I have a feeling the duplicate voters may be due to a username/ pin issue. If we need to update a pin, we can do that. However, if we need to edit or update a username for a voter then we need to *delete* the voter and then create a *new* voter.

If there is a better way to handle username/ pin issues, please let us know. And either way, I will go over this information with our PUP and Elections team.

Thank you so much.

Best,
MT

Hi Dani,

I can think of two situations:

One situation would be that the information was entered incorrectly. When our voter was not able to log in, they would come back to us and we'd see that the username or pin was not entered correctly. If it was a username error, we would then need to then delete the voter and re-enter them. We can edit a pin number.

Another situation would be if we enter the same username / pin for two different voters. This tends to happen when we work from a list. For this reason, we try to work from pre-stickered cards rather than the lists.

I hope that helps.

I hope this email finds you well. And thank you for resolving those duplicates.

As part of our process at PUPs, we do check to see if a voter has already been registered or is in the system -- We ask them if they've already registered, and also search the voter portal for their name before we create the new voter.

We've had a few people who have said that they registered online and we're waiting for their username and pin but it had not arrived and therefore they wanted to vote at a PUP. We've also had voters who had registered, and when we checked were in the system, we were then able to just provide their pin and username.

I hope this clarifies our process.

Thank You,MT

Hi All,
I sent out emails to the verified voters on the list that had full voter records. The list of "MAKE THESE YES" I am still waiting for clarification on.

When running a comparison on the master file compared to the new file - I found 3 additional duplicates. These are attached, but please note - these 3 voters were all entered on the 4th of April, and were not part of an upload that we at E1C did. I am unsure if you had multiple pop up polls, but it appears these duplicates are happening at the polls. Hi Dani,

Maury told me you needed the full registration details for voters being moved from the No to the Yes category. (If you recall, I had just sent a short list with names and email addresses only.) Stephen asked if I could please hold off on creating that detailed list til we are done processing the last batch of registrations here in the office. I will send the revised list to you as soon as I am able.

Best wishes,
Ann-Marie

Hi All,
We are processing the first spreadsheet now, but I'm confused on what the second one is? This just has names and emails and says MAKE these YES. I am unclear as to what I am to do with these as their record is incomplete on this spreadsheet.

Also I do know that Scott Gray (first on the list) voted yesterday.
Please advise,

Hi Maury,
Yes we do need the full voter record to upload them into the system. Also at first glance I've located 3 voters on the list that are already in the system :)

Hey Dani, These were all on the No list but after double checking the work they are on the yes list. Do you need all their info?

Maury

Hi All,
I sent out emails to the verified voters on the list that had full voter records. The list of "MAKE THESE YES" I am still waiting for clarification on.

When running a comparison on the master file compared to the new file - I found 3 additional duplicates. These are attached, but please note - these 3 voters were all entered on the 4th of April, and were not part of an upload that we at E1C did. I am unsure if you had multiple pop up polls, but it appears these duplicates are happening at the polls. Let me know if I can help write some quick instructions for the poll workers on election day/if you need anything more from me. I want to ensure that everyone searches for these voters and doesnt duplicate their records. I am deactivating duplicate voters as I find them so no one has double voted.

Thank you,

Hi Ann Marie,
Tom had re registered and I caught he duplicate- I did email his original credentials to the corrected email address he provided on the registration he filled out.
Thanks,

Hi Dani,

I have one more person who was on the bounce list from the 2016 pre-verified voters:
Tom Gilmore [redacted]

His first email bounced as he was on the typo list; did his credentials make it through to him on the second try?

Thank you for looking him up!

Ann-Marie

Hi Maury,
All pins and usernames with the exception of the one last file have been sent. I replied to the email from Jovante today to alert you to the file - You always look for Anne Marie to send them but in her absence Jovante did :)

After that file is approved and sent back to us, we will email out those PINS and usernames, and then yes, all of the returned and verified voters will have been emailed.

Thanks,

Dani Charleston

Thanks for following up with Carol! If Bryan's corrected City email did not bounce back, no need to contact him any further.

Thank you for your help with these, Dani!
Ann-Marie

bounce lists. I don't know if any of the three got reinstated after you tried re-sending to the corrected bounce list, so wanted to follow up on them separately, so they wouldn't wind up with duplicate accounts.

Dean Misch [redacted] and Bryan Eck ([redacted] were both on the bounce list because of typos. (Bryan was on there under an LA City address that was misspelled).

And Carol Schatz has a new email address because she appears to be with a new organization; it is [redacted] She verified her new street address and position with her new organization, so she should be moved to the verified list unless she already voted from her old 2016 account.

All three individuals should be listed as verified, and given logins, if they weren't already.

Thank you so much!
Ann-Marie

Hi Maury,
I will need to know the names of the 10 poll workers - are they in addition
to the users I've already created?
The user name and PIN list I provided to you all at the beginning had 1000
user names and pins - do you not intend to use this list? I can create
additional, I just wanted to make sure I understand the request.

I'll send a draft over to you shortly of the results we will provide on
election night.
Thanks,

Dani Charleston

-------- Original Message --------
Subject: Re: Three more preverified voters from Bounce list to reassess
From: Dani Charleston <dani.charleston@everyonecounts.com>
Date: Tue, April 04, 2017 11:10 am
To: annmarie@empowerla.org
Cc: Stephen Box <Stephen.Box@lacity.org>

Hi AnnMarie
So here are my findings:

- Dean Misch received his email at the indicated email address
- Bryan Eck was on the list of revised emails we sent out - but it did not go to the gmail account you've listed here, the corrected email we were provided was bryan.eck@lacity.org.
- Carol Schatz's record was deactivated pending updated information - I will upate her email and reactivate her, and email her.

Please advise if you'd like Bryan's email sent to his gmail as it was already sent to his LA address and did not bounce back.
Thanks,

Dani Charleston

Hi EZ,

Thank you for the heads up. We will plan accordingly for any of these scenarios. Removing board positions or canceling an election does take some effort but can be done in a fair turnaround time.

We have the ability to spoil the C ballot this voter cast and allow them access to the system once again but serve them the updated G ballot. The voter would need to be notified that this was occuring. The credentials this voter used would become active once more and they would see the submission cancelled message once they logged in. All I require to implement this solution is approval and to know which party will be responsible for contacting this voter.

We run the risk of this voter NOT voting again and if that occurs the spoiled ballot would remain spoiled.

Please let me know on the most appropriate course of action to best serve this voter.

Hi Sevak,

I wanted to circle back on this item to see if you had any feedback for us? Our last delivery on 4/06 included the address verification for all fields as requested. Additionally, when approved, we can discuss the implementation and switch to the E1C apps. Thank you!

Hi Sevak,

I wanted to circle back on this item to see if you had any feedback for us? Our last delivery on 4/06 included the address verification for all fields as requested. Additionally, when approved, we can discuss the implementation and switch to the E1C apps. Thank you!

Best Regards,

Jose Medina

The validation occurs when a voter has selected an option of what type of stakeholder they are registering as and after entering an address in the appropriate field. It is the same code base which you are currently using on your applications.

Good afternoon all,

Region 5 Community Council Mid City West is now live. The eLect Online Voting platform and Interactive Voice Response platform opened at 12:01AM on 04/10/2016 and will run until 05/01/2016.

Registered voters will receive a notification sent to their email address on record as soon as we receive this data from EmpowerLA, with their voting credentials.

As not everyone was on the test email notification that will be sent to voters, please find below the application links:

Hi Jose,

The Voter Management credentials for Region 4 have been uploaded to the SFTP. Please note that all but one credentials were deactivated for Region 1 polling day. You can still access the SNC and PCNC Voter Management by using the following creds:

snc_poll1
pcnc_poll1

We will be following this deactivation procedure for the upcoming elections as well. Only the first credential will remain active to provide you with access to the system. Thank you.

Stephen,

We do have a potential solution for item #1, but only for those elections that have not been signed-off on. For the upcoming elections, still in testing, we could create an additional access period that can remain open longer for polling day. This would not require us to deactivate any voter because this access period will only be used in the polling locations. All voters would be voting on the same application but instead visiting through a different tunnel while at the polling locations. Happy to discuss more in detail.

Friendly reminder, all applications that are currently live are considered to be in a state of "code-freeze" therefore, this solution does not apply because it introduces risk to change the settings.

Thank you!

> 1. To meet the rule of "if you are in line, when the polls close, you still vote" we've agreed on the process of assigning a provisional ballot to those voters who are in this scenario. The applications have a hard-close because they are externally accessible to those voters not in the polling location. If we were to change the process and deactivate the voters not in the polling location, that would cause confusion to those voters attempting to vote from a remote location. If a voter is deactivated from the system they will receive an error message that states "You are not eligible to vote in this election", which is accurate logic based on the voter's status. Additionally, the process of deactivating the voters is manual which could introduce unnecessary risk.
>
> 4. We investigated this problem on polling day (04/02) with Sevak. The list of names he provided all were experiencing the "no ballot" issue because they had been assigned the incorrect ballot style by the poll workers. The ballot styles were entered with a dash

instead of an underscore. Example:

Correct ballot style = SNC_G
Incorrect ballot style = SNC-G

The reason these voters could not log back in at a later time is because they were deactivated from the system. Sevak confirmed that the voters experiencing this issue received a provisional ballot therefore, were deactivated from the system to prevent a double vote. Please provide a list if there are additional voters that you'd like us to investigate.

Also i would recommend encouraging provisional voting rather than cause a commotion at the polling site if there are any issues.

Hi, Dominic,

Hope all is well. Thanks for your email and your work on this. I've asked Stephen to review the process as providing multiple ballots to the same person is out of the question. We will update you on this in our meeting next week.

Please let me know if you have any other questions or suggestions.

Best,

Hi All,

I wanted to refresh everyone on the process of closing the online and IVR applications on polling day. The applications will have a hard close at 3PM PT for SNC and 4PM PT for PCNC. This means that if a voter has not completed their vote before these times they will be logged out of the system. Should this scenario occur, the voter would then need to be provided a provisional ballot to complete their vote. Please don't hesitate to reach out with any questions.

Best Regards,

Hi Jose G,

This voter was identified as a duplicate registration and we are still waiting for direction on how to process these. Ideally the most correct record should get assigned the voting credential. I have forwarded you the email and lists I sent out on 03/28/2016 in which we identify this voter and others as duplicates and bounces.

Please find forwarded the list of duplicates we identified and bounces (those voters who could not be emailed) from email originally sent on 03/28/2016. We are still waiting on direction for which voter registration record is the most correct. We will not upload those voters identified as duplicates.

Hi All,
I want to make sure both teams are on the same page.

Dominic has been sending the list of duplicate registrations for ELA to sort out and determine which of the registrations should be accepted and put into the system. The E1C team does not have the authority to make that decision. Therefore any voter Dominic has provided back to you all as a duplicate, is not currently listed in voter management and doesn't have a PIN to vote.

Dominic will add any and all voters into the system once their status has been verified and duplicates removed.
Thanks

Dear Saaliha,

Thank you for registering to vote. You have been certified to vote in the 2016 Canoga Park council elections . You will be contacted with more information, including how to vote, and when to vote.

Meanwhile, now is a great time to prepare for El Niño. Click here to receive updates from LA's Emergency Preparedness Department.

Please email Elections@EmpowerLA.org or call 818-293-VOTE if you have any further questions.

Thank you for all you do to Empower LA!

Sincerely,

The EmpowerLA Elections Team

We did have one question for you, in our meeting earlier this week your team mentioned that the entries for qualifying documentation would consist of acronyms - ID, SOS, MILID etc. Could you please confirm this is accurate and also provide a list of potential entries? The reason I ask is because the fields do have character limitations that cannot be overwritten so we would like to ensure that we don't hit any issues there. Alternatively, to be on the safe side, we could also include a second "qualifying documentation" field if needed.

Hi Jose G,

User ela_test has had an updated VRDB loaded and test voters re-uploaded. The credentials remain the same. You must click the voter to get the Show Voter information screen and then Edit Voter to update the fields.

Best regards,

Dominic Gonzalez

We did have one question for you, in our meeting earlier this week your team mentioned that the entries for qualifying documentation would consist of acronyms - ID, SOS, MILID etc. Could you please confirm this is accurate and also provide a list of potential entries? The reason I ask is because the fields do have character limitations that cannot be overwritten so we would like to ensure that we don't hit any issues there. Alternatively, to be on the safe side, we could also include a second "qualifying documentation" field if needed.

Hi Jose,

Could you provide a Ballot Style Calculator for Palms, and Del Rey, since both councils voters are able to receive multiple ballots.

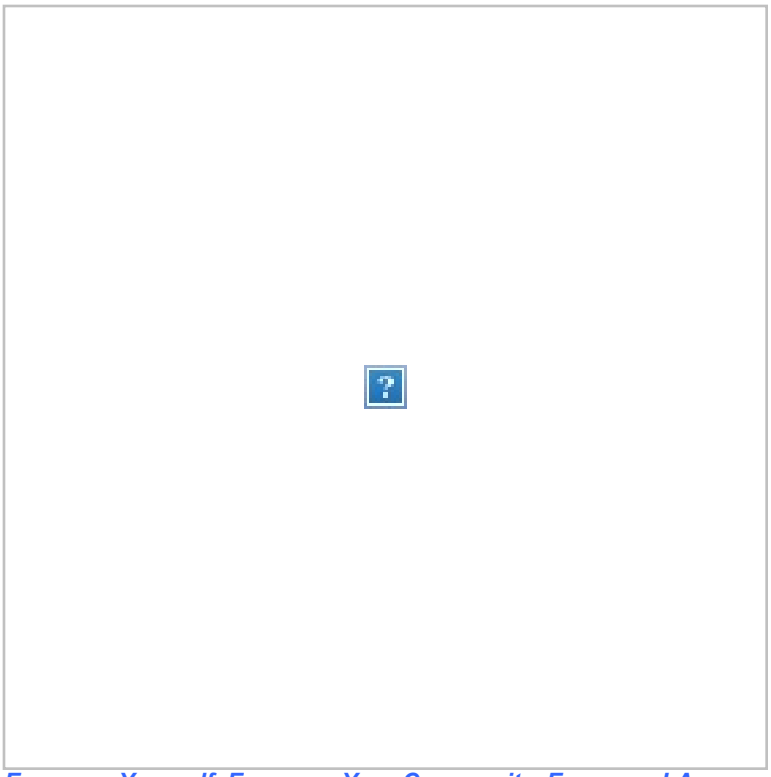

For the other Neighborhood Councils the poll workers will use a cheat sheet.

On Thu, Mar 24, 2016 at 11:44 AM, Jose Medina <jose.medina@everyonecounts.com> wrote:

> Hi Jose,

I'm finished with entering the test data for West Hills NC. Please send us the decrypted results for comparison.

I'm not sure if it's an issue, but one of the credentials didn't work during my testing.
The credential number was 1247460.

On Wed, Mar 23, 2016 at 11:52 PM, Isaias Cantu

<[redacted]> wrote:

Jose,

I couldn't test Canoga Park NC. When I entered in the login credentials and hit submit it just took me back to the login page.

These are the credentials I tried:

1673078	4246
1777007	3485
1532217	5852
2336804	7654
1597402	1673

Please let me know when it's available for us to test.

Hi Jose,

Changing the title of the contest can be done however, we don't recommend doing so for a live encrypted election. Changing the title of the contest requires a service interruption (application not available) and a re-test of a clone test application. Additionally, this would require a change to the audio files for the IVR application and a re-test. This is a risky task.

Since we are already cloning the SCNC application for polling we can definitely change the title then. This means that the new title would only be visible during polling day. Please advise.

Best Regards,

Jose Medina

Hi Sevak,

I'm notifying you that we had no bounces associated with emails sent to SCNC, NHNENC, NHWNC, and NWNC yesterday. There are no bounce reports to be generated since we had 100% delivery on these voters.

Best regards,

Dominic Gonzalez

Hi Sevak,

Dominic mentioned you guys connected earlier regarding the SCNC voters. Here is the email with the information we provided regarding the voter submissions. Let me know if you have any questions.

Have a great weekend!

Best Regards,

Jose Medina

Hi Jose,

Please find attached a zip with two files, SCNC_Polling_Day_Voting.csv and SCNC_Early_Voting.csv. The zip is password protected.

In reviewing the lists of voters who submitted a ballot we identified three voters allowed to submit a second ballot on Polling Day. After reviewing the audit logs we identified the poll worker username, who provided access to these voters, as "scnc_poll1". The following voters were allowed to submit a second ballot:

1. Jenny Stewart
    1. Record was reactivated on polling day
2. Jo Perry
    1. New voter record was created on polling day, new credentials were provided to the voter
3. Thomas Perry
    1. New voter record was created on polling day, new credentials were provided to the voter

We will take action based on your guidelines on how to handle duplicate ballots. We can either:

1. Re-run tabulation, excluding bot submissions
2. Re-run tabulation, excluding first submissions
3. Re-run tabulation, excluding second submissions

Please advise.

Subject: Preliminary Stats for Region 3 NCs
To: Sevak Paramazian , Stephen Box , Jose Medina , Dani Charleston , Sheri Charleston
Cc: sevak@paramazian.com

Good morning all,

Per the texted request, I'm sending some preliminary usage stats for the Region 3 applications. These are unofficial and not final until the canvass reports are sent.

Confirmed Submissions
Canoga Park - 62 English, 0 Spanish
Encino - 26 English, 0 Spanish
Lake Balboa - 56 English, 1 Spanish
Reseda - 48 English, 0 Spanish, 0 IVR English/Spanish
West Hills - 73 English, 1 Spanish

Good afternoon all,

I've noticed a trend through helpdesk today. All voters with issues in Lake Balboa NC are telling me the link in the email is wrong and directing them to the Reseda application. I have checked our bulk emailer and these voters were correctly sent emails on our end. It appears that emails from EmpowerLA are being sent with the incorrect link for Lake Balboa.

Please let me know if you have any further questions.

>
> > This is the process we perform every time we receive new data since the verified voter files we receive contain voters we've already added, updates, and new voters without labeling them as such.
> >
> > - Export current voter list
> > - Compare current voter list with updated voter list from EmpowerLA
> > - Update those voters that from the EmpowerLA list that appear in the elections voter list and on the verified voter file

    - it is assumed the verified voter files are the most up to date
- If duplicate new voters appear in the file, these get sent back to EmpowerLA to identify which record is the most current
- Assign credentials to those voters not already in the system
- Upload new voters and updated voters to election database and email database
- Schedule email send as needed
- Supply bounce list (if any) to EmpowerLA

We have requested a unique identifier tied to these voter records to reduce the amount of time spent manually processing these voters but we still have not received a response to this request. If future records sent over were to include such a field, the amount of time to process the first 4 steps could be vastly reduced.

As I responded in my previous email, I'm currently searching and auditing all voter files sent by EmpowerLA to see if there were any voters that were overlooked. This is a time consuming process due to the lack of unique record identifiers in the data.

The most common complaint we receive from voters via Helpdesk is that they never received their emailed credentials. Most times this is because their emailed credentials bypassed their inbox and were filed as spam. When I have taken those Helpdesk calls and emails I usually first direct the voter to check their spam folder. Their email is usually found and I confirm for them their voting credentials.

Please let me know if you have any further questions.

Hi Sevak,

Processing of these voters has occurred and emails are being sent out as of 1:40 PM. We sent emails to 65 voters which comprised the entirety of the list.

We will supply a list of bounces (if any) on this thread once the email send finishes.

Subject: Hardware pricing for Polling Location use
To: Sevak Paramazian
Cc: Dani Charleston , Jose Medina

Hi Sevak,

I hope you are well and had a good holiday weekend.

Thanks for giving us an opportunity to quote hardware for use at the polling sites.

I wanted to see if we could resell some of our pilot hardware at a discounted rate from a recent effort in Canada, but that hardware is tied up in the customs process and we can't be sure when it will arrive back. For sure, it won't be back in the states and ready for your first election use.

The attached quote is a list of optional hardware to choose from in three buckets: Tablet & table top stands for voting, Chromebooks for use as your voter registration check-in devices or alternatively, low-end laptops for same purpose. I also included an example quote for a Windows-based Tablet with a detachable keyboard for comparison.

Let me know when a good time is to discuss this and I am happy to answer any questions you may have.

Hi Jose, Stephen, and Sevak,

Please find attached three credentials to access the Canoga Park Voter Management for voter registrations. This document also contains the username/password to access the SFTP site. **NOTE**: the document is password protected with the same password I messaged you yesterday evening at 5:48p.m.

I have also attached an instructions manual that outlines the steps we went through today. Here are the links for the different applications:

Voter Management
Canoga Park Registration Application
Canoga Park Supplemental Documentation application

Furthermore, we were able to investigate the issue with the addressed used during today's demo (123 Main St.). It was determined that the issue lies within the address verification code created by the Bureau of Engineering. We reached this conclusion by using the address on the ELA Voter Registration applications for Wilmington and Mid City West, the address was accepted in both applications even after it was determined that the address belongs to the DLANC. E1C does not have access to this code, therefore, this issue must be submitted to the BoE for further investigation.

Please don't hesitate to reach out with any questions. Thank you.

Best Regards,

Jose Medina

Voter Registration through eLect Admin

Within eLect Admin, you have the ability to verify your voters through Voter Management.

Election administrators with access to the system will be able to log in to view the voter registration applications. Access to additional documentation can be accessed via SFTP.

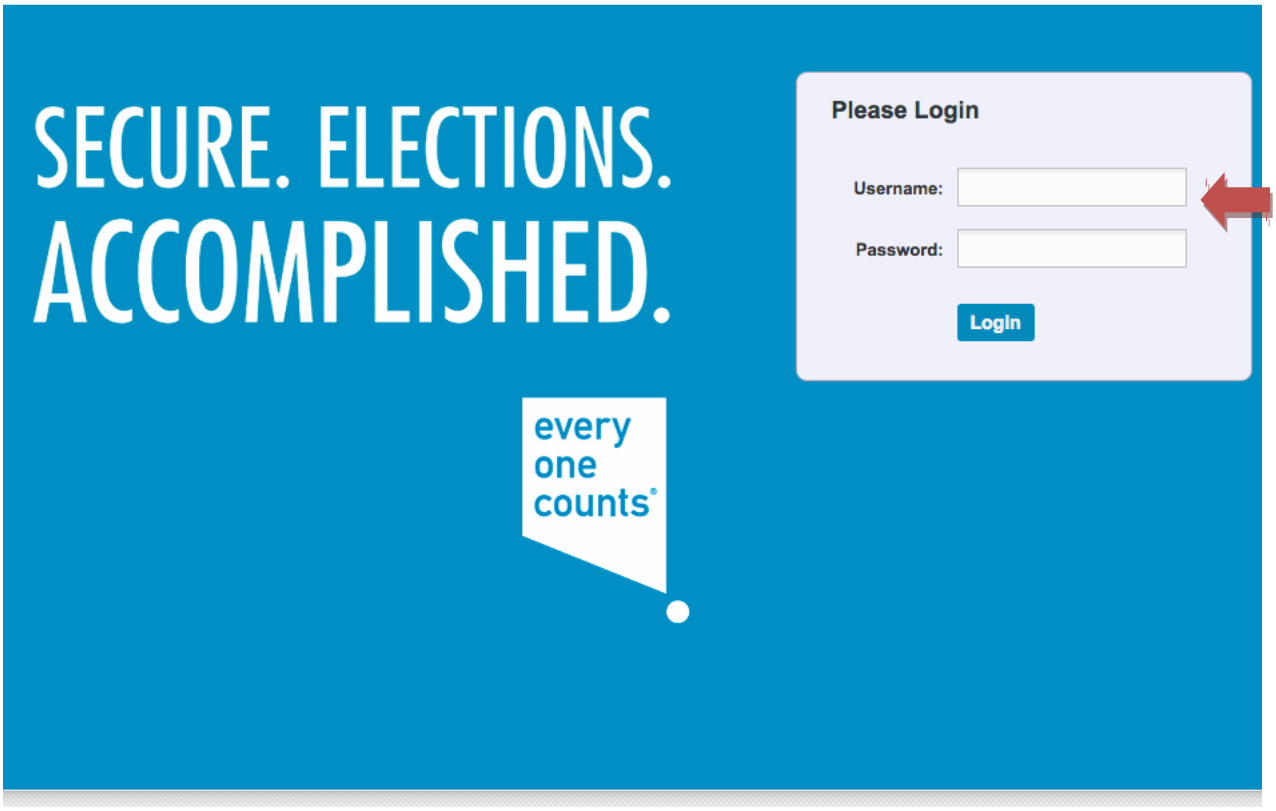

This document will cover the following topics:

- How to login to eLect Admin
- Accessing the Neighborhood Council Voter Registration dashboard
- Verifying voters

How to Login to Voter Management

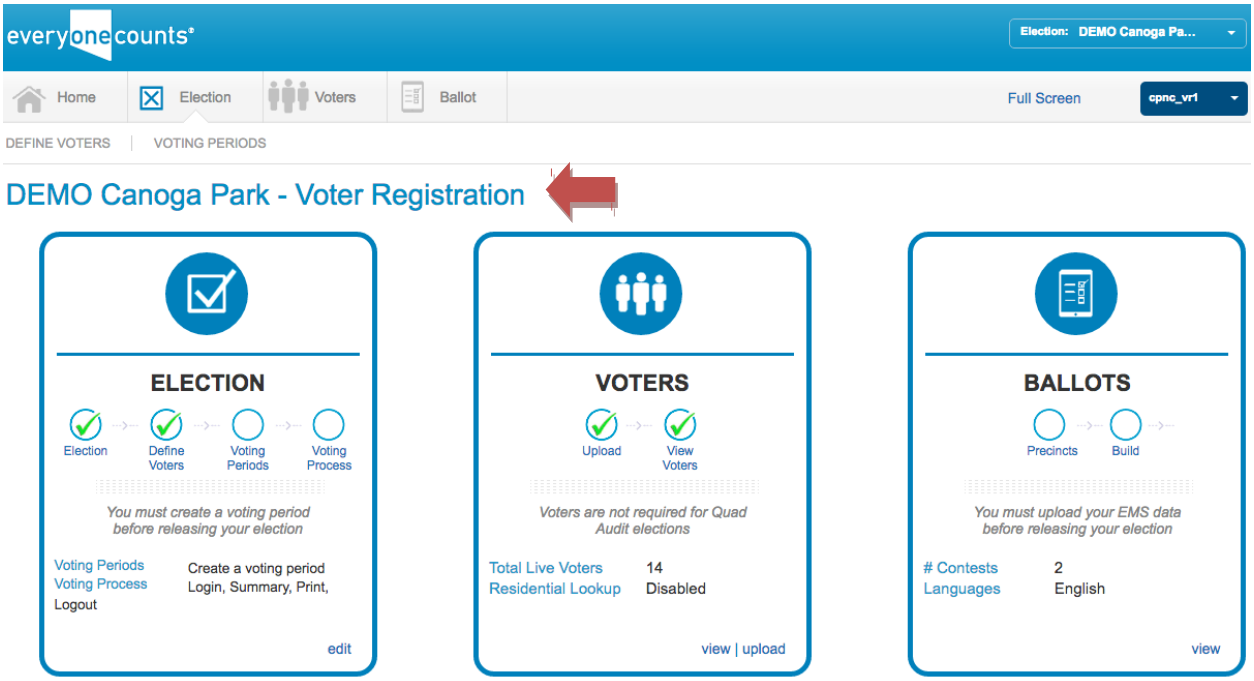

Election administrator login is kept on the General screen. Navigate to the admin.everyonecounts.com page to enter your assigned username and password. Click “Login”.

Unique usernames and pins will be assigned to EmpowerLA! stakeholders for distribution to approved Election Administrators (EA).

Accessing the Neighborhood Council Voter Registration Dashboard

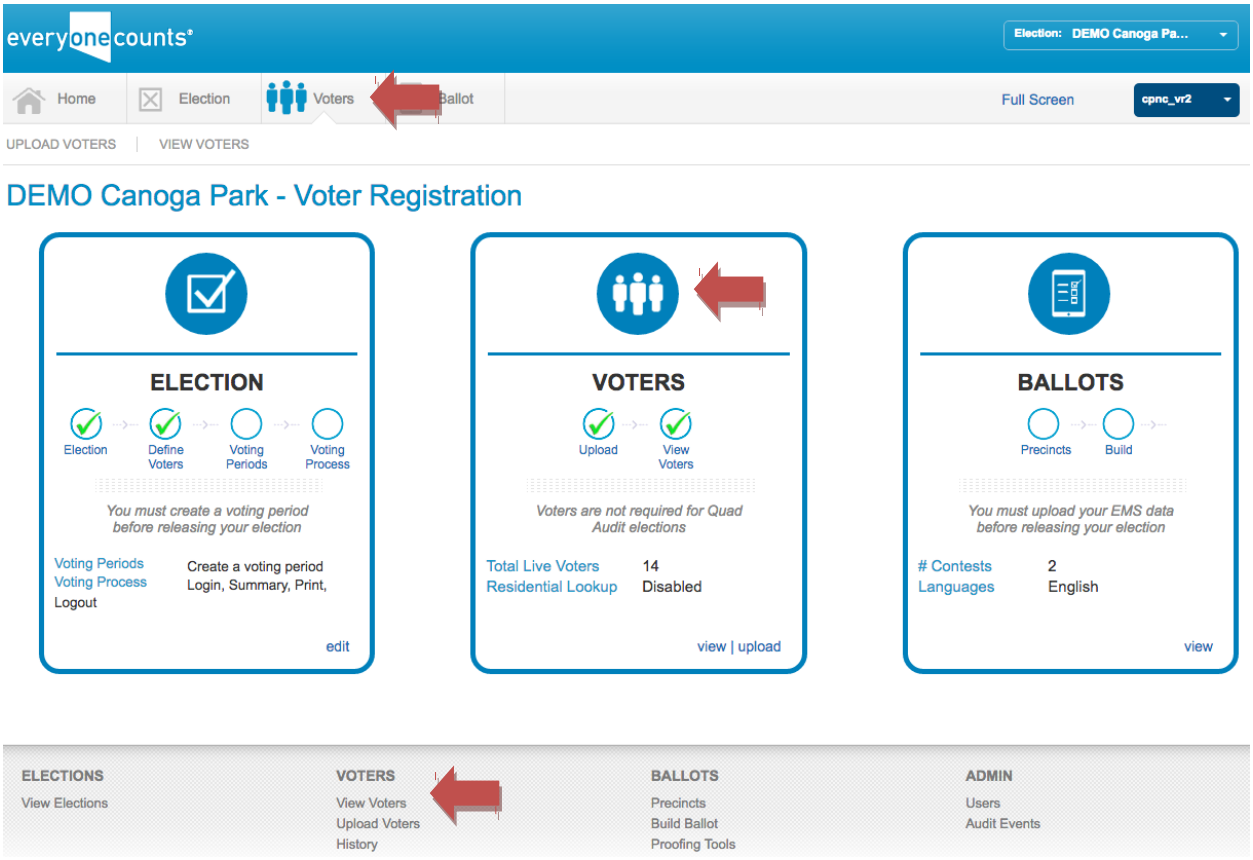

After login, the Neighborhood Council dashboard is the first page an Election Administrator navigates to. The Neighborhood Council name will appear directly above the three dashboard options. Each username/password will have access to a singular NC at any time.

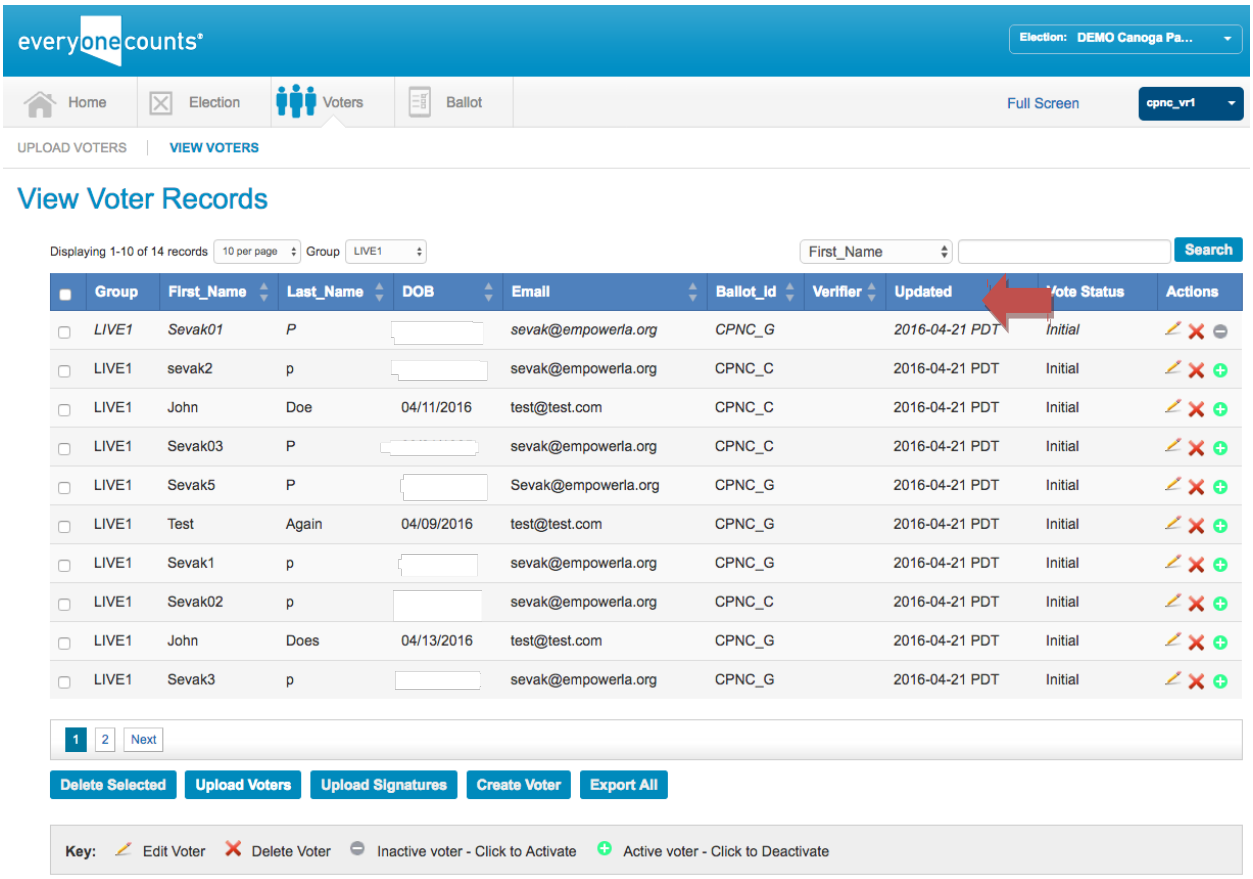

Election Administrators (EAs) will navigate to the “Voters” section of Voter Management. In this section EAs will have the ability to review voter registrations, approve registrations, and edit registrations. The “Election” settings will be configured by Everyone Counts, Inc. EAs will not be required to edit any settings for the NC election. Similarly, EAs are not required to access the “Ballots” section within the dashboard.

Verifying Voters

EAs can access the voter data by selecting the “Voters” box in the center of the dashboard. Similarly, an EA can navigate to the same page by clicking the “Voters” tab on the top of the dashboard page (see top arrow below) or by selecting “View Voters” located on the bottom section of the dashboard page (see bottom arrow below).

On the “View Voters” page the EAs will have access to all voter records submitted through the E1C Voter Registration applications. An EA can determine which records are new by viewing the dates on the “Updated” column of each record.

Edit Voter | Voter List

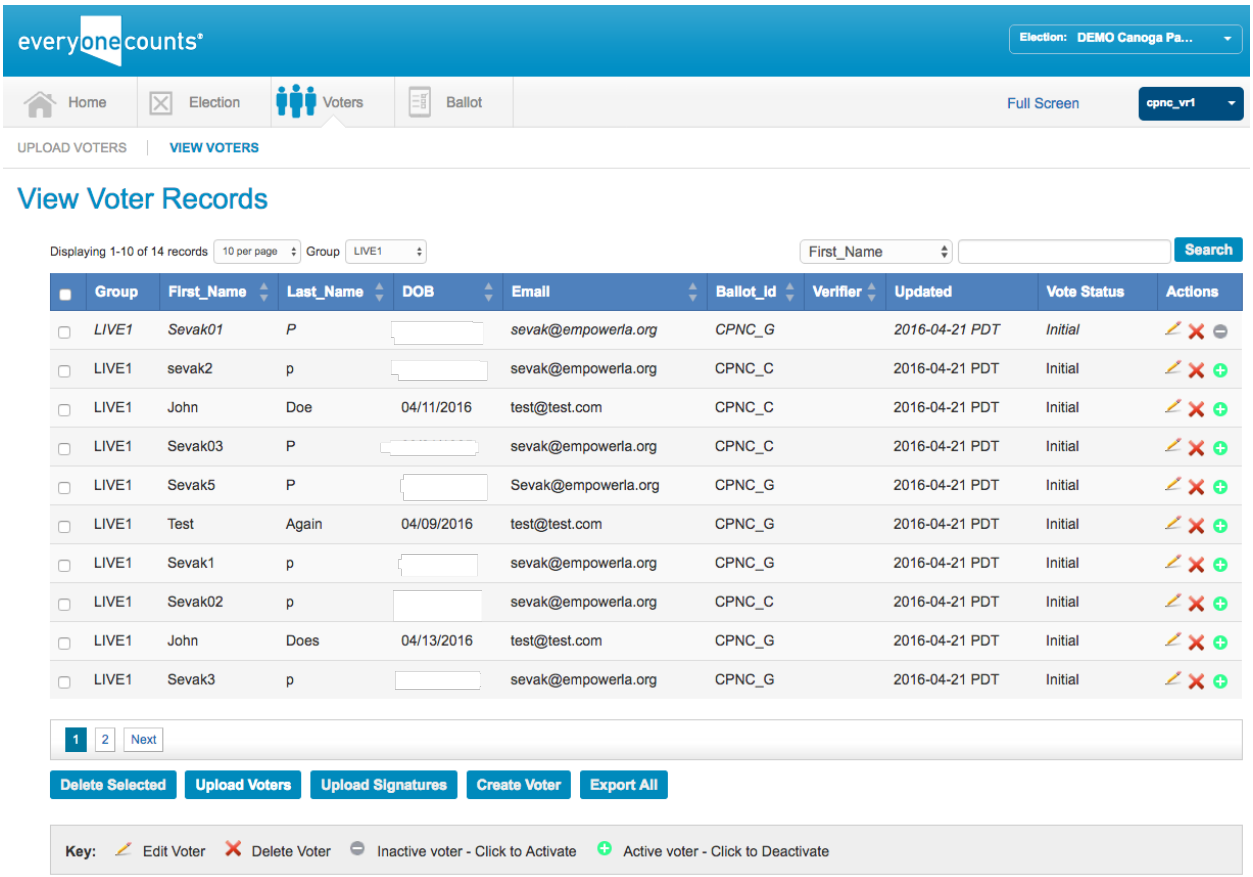

An EA must review the information found in the voter record along with the supplemental documentation. The voter documentation will be stored in an SFTP, which is also be accessible to the EAs.

Each NC will have it's own directory on the SFTP with subfolders to group the daily registrations (see file structure below).

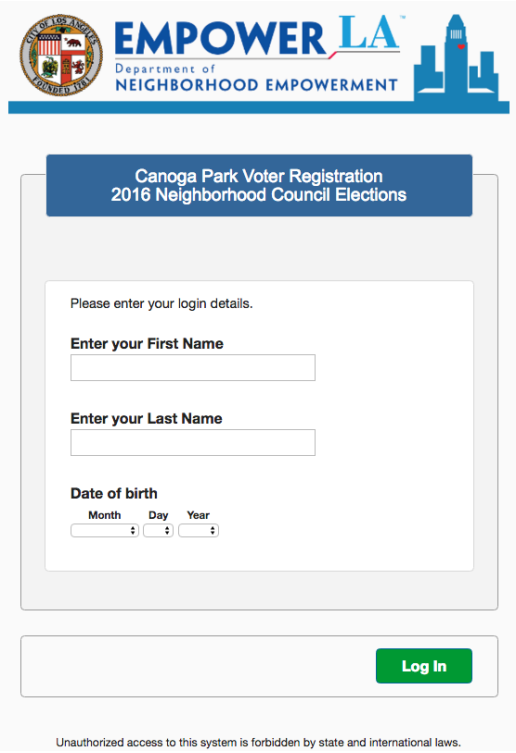

Documents for new registrations are located in the "New Registration Documents" which are then placed in subfolders for each day (Monday – Friday). Documents for updated registrations are located in the "Updated Registration Documents" which are then placed in subfolders for each day.

The "SDoc1" field on each voter record will provide the name of the document(s) that the voter uploaded. The EA will be responsible for locating the document on the SFTP to verify the voter. When the voter is verified the EA will click the green + circle on the voter record row. This will transform the voter record row into italics.

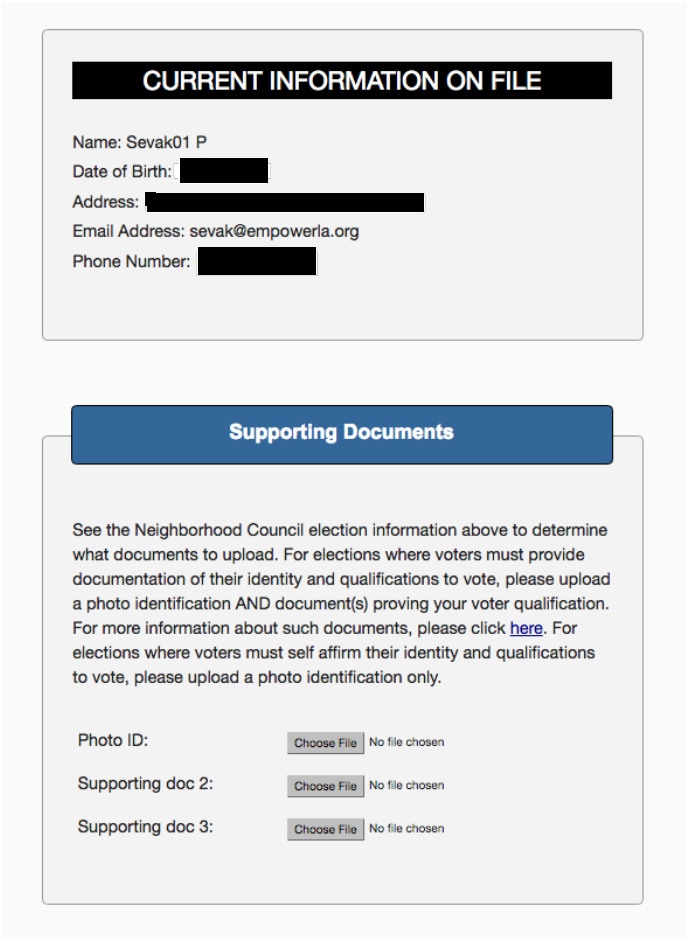

The E1C team will take each record with this format and assign a username and pin, which will then be emailed out to the voters for use on the NC elections.

If a voter record is determined to be incomplete then the EA will use the ELA proper procedure to contact the voter for additional information. If a voter is required to provide additional documentation, they have the option to use the E1C Voter Registration documentation upload application. Each NC will have it's own documentation upload application which can only be accessed by voters who need to provide supplemental documentation. The voter will need to enter their First Name, Last Name, and DOB exactly as they submitted on their registration application.

Upon login the voters will be presented with NC specific information along with their current voter record. The voter can only take two actions through the application, Logout or Upload Documentation. If a voter uploads additional documentation the information will be captured by the application and the E1C team will update the voter record to reflect the updated information.

CURRENT INFORMATION ON FILE
Name: Sevak01 P

Thanks Jose,

I'll review and get an application spun up after MCWCC and EPNC so you all can see the instant run-off voting.

> How does staff get the voter documents that are needed to verify the voter? (Picture ID and Qualifying documents)
>
> Are the documents attached to the voter profile, similar to the current set-up on the ELA Voter Registration portal?

Would they be emailed or in a file that would need to be searched or sorted in order to locate the documents?

Would E1C rename the incoming documents so that they could be sorted or searched?

Is there a notification process so that staff know when a new voter profile has been created? If not, would staff be able to sort profiles to isolate by council, by date, by progress (incoming, needs followup, verified, username/pin issued...)?

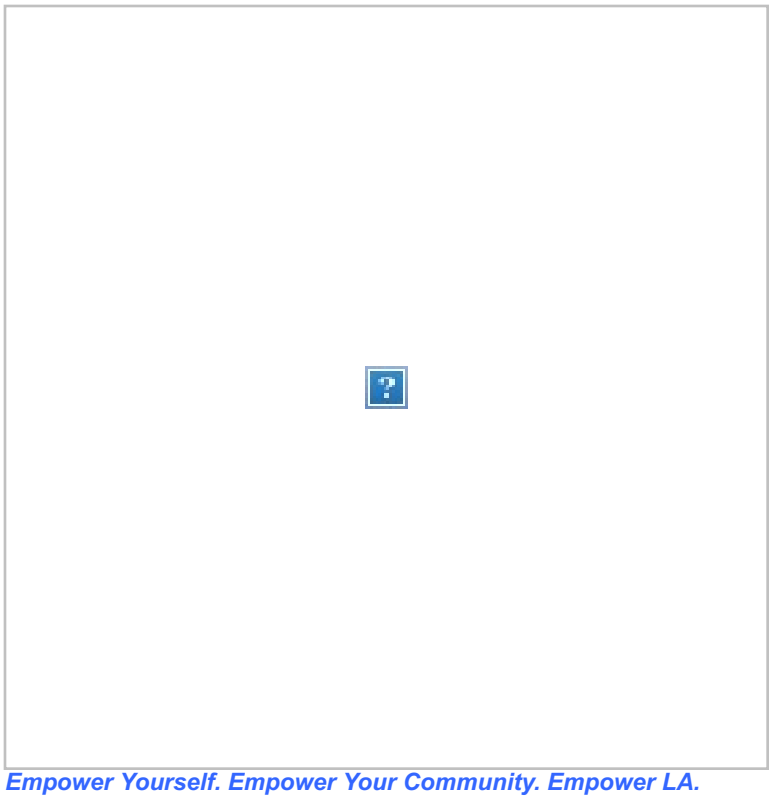

In short, the biggest question relates to how we verify voters and not having seen the system from the backend, the biggest question is simply "When can we get in and see how it works?" The most recent discussions have included hypotheticals and not specifics.

I hope this helps prepare us all for today's call!

Region 3 has officially been tallied and reports generated for the following Neighborhood Councils:

Canoga Park NC
Encino NC
Lake Balboa NC
Reseda NC
West Hills NC

The Canvass and reports have been uploaded to their respective folders in the SFTP site. \\upload\2016 Official Results\

Please let me know if you have any further questions.

Region 3 has officially been tallied and reports generated for the following Neighborhood Councils:

Canoga Park NC
Encino NC
Lake Balboa NC
Reseda NC
West Hills NC

The Canvass and reports have been uploaded to their respective folders in the SFTP site.
\\upload\2016 Official Results\

Good afternoon all,

The following Neighborhood Council Elections are now closed. Decryption for these elections is set to begin momentarily.

- Canoga Park NC

The included votes and credentials have been uploaded to the SFTP site and are in directories:

\\upload\2016 Early Voting Results\CPNC\
\\upload\2016 Polling Day Results\CPNC\

Please decrypt the ballots and upload the goodVotes.xml file and we will tabulate these results.

This concludes the Online Early Voting and Polling Day Voting for Region 3 Neighborhood Councils. Decryption and tabulation is scheduled to take place tomorrow morning. Thank you all for your hard work.

Best regards,

Dominic Gonzalez

Good afternoon all,

The following Region 6 Neighborhood Councils have been tabulated and reports are available on the SFTP site in folders:

\\upload\2016 Official Results\HCNC
\\upload\2016 Official Results\OPNC
\\upload\2016 Official Results\DLANC

The Canvass of votes is also supplied.

As a reminder, this is the last set of NCs using EmpowerLA's public keys and will require the encryption stakeholders to decrypt the ballots.

The included votes and credentials have been uploaded to the SFTP site and are in directories:

\\upload\2016 Early Voting Results\DLANC\
\\upload\2016 Polling Day Results\DLANC\

\\upload\2016 Early Voting Results\OPNC\
\\upload\2016 Polling Day Results\OPNC\

\\upload\2016 Early Voting Results\HCNC\
\\upload\2016 Polling Day Results\HCNC\

Please note that there were no submissions through Spanish and Korean web/IVR applications.

Please decrypt the ballots and upload the goodVotes.xml file and we will tabulate these results.

Good afternoon Jose,

Please find attached the poll worker credentials, 2500 voter credsets, and links to the polling day applications. This file has been password protected and I will notify you via a separate channel the password.

Best regards,

Dominic Gonzalez

Good afternoon all,

Decryption and tabulation have completed for Mid City West Community Council and results reports and the Canvass of Votes are available on the SFTP site at:

\\upload\2016 Official Results\MCWCC

There were no submissions through any Spanish language application during the either the Early, IVR, or Polling Day applications. Please let me know if there are questions.

Dominic,

The results match. Thank you.

> Dominic,
>
> Below is the feedback from our Cantonese language tester. The items we're most concerned with are in red.
>
> Hi Isaias,

I have go through the online and phone testing.

Online testing -
The sentence written in the instruction on the first page is OK but not fluent. There are repeated words that are not necessary and make it complicated.

The sentence on the second page with 'Finished' word should not say 'Continue' next to it. It is confusing.

These are just my personal comment.

Telephone testing -

1. Sub-Area 2 representative - in between there is English instruction to choose 8 or 2 for moving up or down.

2. Business Representative -
At the beginning of the instruction, 2 candidates can be choose from. You can move up and down to choose the first candidate and the second one without name announce even though we only have one candidate. I can choose the second one (no name) and save it.

When I go back to review and change the candidates, the blank one was already in the system that I have remove the selection and choose the first candidate (name was announce) to save.

Will this affect the outcome if voters select the blank one, although there is only one candidate to choose from?

3. Overall -
When all the selection is done and go for review, you may go back to anyone of the section to make changes. However, you have continue to listen to the rest of the area after the changes is made. For example: if I make changes and done with Sub area 1, I will have to continue to listen Sub area 2 and 3 and so on without an option of ending the selection or go to another area.

Also, listen to the instruction repeatedly on every selection makes the telephone voting too long.

This is just my personal comment.

The file that was sent on the 26th had the usernames / pw for the poll workers for MCWCC. I'm resending the file. If you need 6 credentials in addition to what is included in the file, let me know and I will send you more. The file is password protected. I will call and tell you the password.

Thanks Stephen,

Here's the text I used in the application along with the application for you all to test and review.

English: **https://empowerla.everyonecounts.com/app/7345/16039**

INFORMATION AND INSTRUCTIONS FOR PALMS NC INSTANT RUNOFF BALLOT

Instructions to Voter

1. The Palms Neighborhood Council Instant Runoff Ballot is for use by Palms NC voters only for those offices where three or more candidates have qualified to run for the same office in a Neighborhood Council election.
2. The Palms Neighborhood Council Instant Runoff Ballot will be counted as follows: Your first choice preference will be the vote counted for the Neighborhood Council election. Only your first choice preference will be counted at this time and your ballot will be secured after it has been counted. If an instant runoff election is necessary, the Runoff Ballot will be counted again, and your highest designated choice of the two candidates participating in the instant runoff election will be counted.
3. You are not required to rank more than one candidate on the ballot, but you may rank as many as you choose. If you only want to rank one candidate, double click in the square on the line next to that candidate. If you want to rank more than one candidate, double click in the square on the line next to the candidates you would like to choose for your second choice, then your third choice, and so forth. If you rank more than one candidate in a contest, each candidate you rank must be given a different number.
4. To rank your choices, double click on the square next to each of your choices, in the order of your preferences. Use the "Undo Last Preference" and "Clear All Preferences" if you want to change the order of your preferences.

Hi Stephen,

Please find attached the list of registered voters for MCWCC. This document also shows who voted prior to the first application closing on Friday, 4/22. NOTE: This document if password protected with the same password I messaged to Jose, Sevak, and Stephen on 4/20.

These voters have not yet received new usernames/pins. Please send us the new messages you would like us to send to those voters that have voted and to those who have not yet voted. These new messages need to include the new username/pins for distribution. Let me know if you have any questions.

Best Regards,

Jose Medina

Hi Stephen,

This email does not show any proof tying the ballot to Mrs. Fisher. If still required, we can isolate Mrs. Fisher's ballot for auditing. This will break voter anonymity and we will know exactly how she voted. Please provide a written request if you would like to take the next steps to audit the ballot.

Good morning all,

We have been tracking several voters getting frustrated at our helpdesk staff because they have received certification letters from EmpowerLA but have not yet received their usernames and PINs from Everyone Counts. I have reviewed the DLANC voter files sent to E1C and we have no information on the voters listed in the table below. Additionally we have voters who have contacted us saying they are being served the wrong ballots. I have listed the ballot ids that were provided in the voter files. One of these is a candidate who can not even vote the contest he is running in. Please let us know what we can do to better serve these voters.

DLANC - not delivered to E1C yet

Rena Masten	[redacted]
Leddy Deion Ballesteros	[redacted]
YVONNE COOPER	[redacted]
Danielle Lafayette	

DLANC - wrong ballot_id		ballot_id
Gretchen Davis	[redacted]	DLANC_R3
Ian Chi-Young	[redacted]	DLANC_R5
Andrew Douglas	[redacted]	DLANC_C

Thank you Jose,

I'll reach out to these voters once we have corrected and added their information.

Good morning all,

We have been tracking several voters getting frustrated at our helpdesk staff because they have received certification letters from EmpowerLA but have not yet received their usernames and PINs from Everyone Counts. I have reviewed the DLANC voter files sent to E1C and we have no information on the voters listed in the table below. Additionally we have voters who have contacted us saying they are being served the wrong ballots. I have listed the ballot ids that were provided in the voter files. One of these is a candidate who can not even vote the contest he is running in. Please let us know what we can do to better serve these voters.

DLANC - not delivered to E1C yet

Rena Masten	[redacted]
Leddy Deion Ballesteros	[redacted]
YVONNE COOPER	[redacted]
Danielle Lafayette	

DLANC - wrong ballot_id		ballot_id
Gretchen Davis	[redacted]	DLANC_R3
Ian Chi-Young	[redacted]	DLANC_R5
Andrew Douglas	[redacted]	DLANC_C

That's a great idea! Stephen, Grayce, is it ok to combine the verification and voting credentials emails as Dani suggests?

Dani, I'll prepare a script for that combo email meanwhile, so it'll be ready if Grayce and Stephen say ok.

Best,
Ann-Marie

> 1. When we pull the registration list daily, you'd like us to send an email to everyone in the list using #1 indicating that the registration has been received and will be processed
> 2. Upon receiving a list of voters back from you all to load into the system, you'd like an email going out to confirm that they have been verified
> 3. This email will contain their voting credentials.
>
> Is this accurate? If so, I do have one suggestion - from past experience with emailing voters, we find the fewer emails they get tends to be better. If we could combine letter 2 and 3 to explain their registration was confirmed AND give them their election info, that will allow them to hop on over and vote. We will load them prior to emailing them anything, so its just as easy for us to email their credentials as it is to send two separate emails.

The election will remain open until the close of polls on April 6th, 2017. The registration site will close on the 2nd of April, and be available again on election day for your poll workers.

AnnMarie has the information to update the EmpowerLA website. Once we have been notified that the update has been made, we will send emails to voters! Please be sure to contact us if we can assist you in any way.

EC Central - Region 10
West Adams - Region 10
Park Mesa Heights - Region 10

Since I will be out of the office until August 15th, I'm copying our team and City Clerk's to work with your team if you have any questions on the NCs.

Also, we are processing invoices 6-7 and 9 this week and plan for the remaining being paid before August 18th one the 15 NCs are completed.

Please let me know if you have any questions. Have a great evening!

Best,

Grayce Liu

>
> I am aware that you have a fairly packed schedule this month and want to acknowledge that I did receive your text on Monday night that you intended to get us a list of neighborhoods this week so that we can complete the build out per contract of the initial 50 neighborhoods. In that text, you were considering the list of NCs I suggested which would result in the completion of the build out for three of the regions.
>
> I really need a commitment today on which NCs you prefer to prioritize in the remaining build out, otherwise we will go forward with building from that proposed list given the need to complete this portion of the work to meet the contract requirements. We know that it is your intention and goal to add all neighborhoods going forward into the next election round this would appear a good step in that direction.
>
> With regards to contract payments, we are concerned that we have not

received payment on the invoices for work that has already been completed and billed. You mentioned that Armando is out – is there someone from the Clerk side that could initiate payments this week? Per contract the invoices sent to you are due and payable 60 days following the date of the last election held (June 18) so that would mean all payments are due to us by August 17, 2016.

Please confirm:

- Your list of priority Neighborhood Councils today
- That you will ensure payments are initiated to us for receipt by August 17, 2016

I am available today by phone if you would like to discuss any of this,

Shelley

Good afternoon all,

I have encrypted the registered voters and attached the archive into this email. I will send the password to the archive through a different channel.

Please let me know if you have any difficulties viewing or extracting these files.

Best regards,

Dominic Gonzalez

On Wed, Jun 29, 2016 at 6:15 PM, Jose Medina <jose.medina@everyonecounts.com> wrote:

> Hi Jose,

I have attached the excel spreadsheet with the totals included. There are a couple of things I need to note:

1) The CIS #s are not in this report. Adding the CIS numbers will take a bit longer because of the manual effort it takes to identify the numbers. We have to go through all registered voters for all NCs and filter through the files.

2) The effort to identify the pop-up turnout is manual due to the fact that the early voting URLs were used for these pop-up locations. There is no clear cut way to distinguish these votes. In order to decipher which submission is offsite vs at the pop-up, the team had to filter through IPs and validate against the poll-workers history during the pop-up poll dates. Please compare these numbers against any data you have for accuracy. For future elections we'll assign a specific pop-up poll url in order to separate the totals.

Thank you.

>
> > Hi Sevak,

Our reporting tool received an update late last week so it's currently going through regression testing. We'll begin generating the reports once the tool receives the green light to ensure we're providing you with accurate numbers.

To confirm you are requesting:

1. Number of eligible voters - all NCs
2. Number of voters who voted
3. Voter info = eligible voter data as provided by ELA for processing

Can you please confirm I have this correct? Thank you!

Hi Jose,

Our QA team is deploying an update to reporting today so it is currently offline. We will jump back on to finalize the reports as soon as the deployment has been green lighted. The deployment tests will run through tomorrow afternoon. I'll update you when we have access again. Thanks!

Best Regards,

Jose Medina

Good afternoon Jose,

The recount has been performed for Porter Ranch NC and results are available on the SFTP site in:
/upload/2016 Official Results/PRNC/Recount
I have included a new recount canvass as well as the 3 reports for this NC. I have included the raw ballot mark data for this NC which were tabulated against for verification purposes.

Hi Jose,

We have assigned 22 unique usernames for each NC that still has VR open. Each username is assigned to a single NC which will prevent each user from overwriting their own work. We can change the passwords to each if required, please confirm at your earliest convenience.

Also, the attached file also includes the username/pw for the SFTP site. You will only need this unique login credential to share with the team members that require access. Each user can be logged in concurrent sessions to review/delete files as needed. Thanks!

Good afternoon all,

All tabulation and reporting activities have occurred for the following Neighborhood Councils.

- Porter Ranch
- Empowerment Congress Southeast
- Empowerment Congress Southwest
- Wilmington
- Zapata-King
- Harbor Gateway North

The reports have been uploaded to the SFTP server and all unofficial canvass of votes are accessible as links through the election closed message available to the public.

This concludes Region 2, 9, & 12 Election Close activities.

Decryption and tabulation for closed elections is underway. Tabulation reports will be generated and uploaded to the SFTP site once complete.

The unofficial Canvass of Votes for the closed Neighborhood Councils is viewable via link in the closed message.

Hi Jose,

Thank you for the update.

Here are the names that will need access to the SFTP site:

Stephen Box - Admin
Jose Galdamez - Admin
Sevak Paramazian - Admin
Arin Abedian - Admin
Jay Handal - Admin
John Wills - User
Marki Alvarez - User
Lily Serrano - User
Sharon Lee - User
Ehan Becker - User

The Admins should have access to all files
The Users should only have access to the files that the voters submit.

Also, can we go over the back end process at some point today?

Thank you,

The canvass was posted automatically by E1C, we changed the button to read "election results". The ranked races were sorted until a candidate reached a majority.

Those voters have been uploaded as of 4:30 PM today and have received their credentials via email along with the rest of the files sent over.
Our system has flagged 2 voters as spam and we are unable to deliver credentials to them. I am attaching the report from the system.

Hi Sevak,

The fix for the IRV bug on certain Android devices has been pushed. There was no interruption to the online voting applications. You can use any mobile device to complete the IRV voting.

Let me know if you have any questions. Thank you!

On Wed, Jun 1, 2016 at 6:43 PM, Jose Medina <jose.medina@everyonecounts.com> wrote:

Hi All,

Here are the action items from today's weekly meeting:

Voting Applications:

- PDF Unofficial Results example attached. ELA to provide additional feedback by EOD Thursday, 06/02
  - Item 1: add the word "Unofficial" to report title
  - Item 2: add the IVR results itemized
  - Reports will be used for upcoming NC Election days (first use on Region 11)
- Palms - IRV voting issue on Android. Fix ready for deploy on Thursday, 06/02. Deploy was not blessed for push today, Wednesday, 06/01.
- Palms application close times need to be adjusted. New close time will be 06/05 at 18:00. **Grayce/Jose G. to send email requesting this change.**
  - E1C will make change after request has been made. Change will be made when app has zero traffic.

Voter Registration:

- Palms and Del Rey changes under review by Sevak; both apps re-opened for testing
  - Palms
    - English: https://empowerla.everyonecounts.com/app/6481/13199
    - Spanish: https://empowerla.everyonecounts.com/app/6455/12859
  - Del Rey
    - English: https://empowerla.everyonecounts.com/app/6479/13193
    - Spanish: https://empowerla.everyonecounts.com/app/6135/13187
- SFTP has been categorized by region. ELA to use same username/pw provided by E1C.

Please let me know if you have any questions. Thank you!

Hi Jose,

Pardon the delay as I just returned to the states. All voting channels for Region 10 are now open. After my review, it appears not all voting channels opened on Saturday due to a misconfiguration of the opening times. All set times have been reviewed and corrected.

Best Regards,

Jose Medina

Subject: Re: Region 10 L&A Test Voters
To: Christopher Garcia <christopher.garcia@lacity.org>

Hi Chris,
I found an error:

In the box, where it informs you that once you finally submit the page, it tells you that you can no longer log back in and change the answers.
However, in Korean, it states that you can. There are also other errors in the paragraph; the first sentence is incomplete, and the last sentence is conflicting.
If there are any other issues, Ill let you know.

> "투표를 검토 할 수 아래로 스크롤합니다. 투표에 변경할 수있는 변경 옵션, 또는 계속 ""끝"" 버튼을 클릭하십시오." "당신이 당신의 투표 세션을 완료하면, 당신은 선거에 다시 로그인 할 수 없습니다 있습니다."

Best,
Christine.

Hi Dominic,

Could you be able to provide a report that breaks down the number of pop up polls, early online voting, and election day for Highland Park.

Also can you do the same for Lincoln Heights.

Thanks you.

The following Region 8 Neighborhood Councils have been tabulated and reports are available on the SFTP site in folders:

\\upload\2016 Official Results\GPNC
\\upload\2016 Official Results\HHPNC
\\upload\2016 Official Results\LA32
\\upload\2016 Official Results\LHNC

The Canvass of votes is also supplied.

This concludes the post election activities for Region 8. Please let me know if you have any questions.
